New colour

HELMETS

ABS hard shell

Robust helmet made of EPS foam and injection molded outer shell

In-Mold

Lightweight, durable helmet with a long-lasting combination of EPS core and Polycarbonate shell

In-Mold/ABS

Combination of robust hard shell and In-mold

High visibility

High visibility due to reflectors

Bug mesh

Full protection from insects

Ponytail compatibility

Perfect fit for people with long hair

Half-ring

Adjustable ring connected to adjustment system enclosing half of the head

Full-ring

Adjustable ring connected to adjustment system enclosing all of the head

Lower edge protection

Provides the helmet with additional protection from external damage

ActiCage

Structural reinforcement integrated into the EPS to optimize stability

XL Size

Large helmet sizes available (62+ cm)

Ventilation

Number of air intakes and outlets

Forced Air Cooling

Innovative ventilation system using intelligently arranged air channels in the EPS

Multi Position Design

Optimized aerodynamics – regardless of head position and wind angles

Multi Speed Design

Honeycomb structure in the helmet, which doses the ventilation as needed

DISCOVER THE NEW 2020 CATALOGUE!

We're happy that you're holding the new 2020 ABUS catalogue in your hands. The purpose of this catalogue is not only to inform you of our product innovations, but also to present our new catalogue concept:

An easy-to-understand organisation with quick access to each chapter as well as a list of all product novelties at the start of each chapter make it easy for you to find our new products. For an even better overview, you'll find a summary of all helmet models and colours behind each chapter entry page.

Clear product icons instead of long texts make it a breeze to compare products, and our new technology pages keep you informed about our unique technologies.

Another new feature: The icons at the side provide you with an overview of all of the specifications of our products. Just fold out the additional page of the cover and you've got all the relevant information at your fingertips at any time.

We hope you enjoy daily use of this catalogue and that it offers you a better basis for your work.

Your mobile security team

AIRBREAKER

VENTILATION RE-DEFINED

COOL HEAD DURING TOP PERFORMANCE

Whether ventilation or aero, weight or safety, the AirBreaker offers top features with the highest ABUS standard.

ActiCage Lite

Thanks to ActiCage lite -an integrated structural reinforcement- the AirBreaker provides maximum protection with minimal weight.

Floating Padding

Floating padding to improve comfort.

FlowStraps

Aerodynamic, flutter-free and skin-friendly, thanks to specially developed webbing.

AirPort

AirPort is a true aero miracle: special temple channels let you safely and aerodynamically store your glasses in the helmet's rear.

Zoom-Ace

The Zoom Ace system guarantees a perfect fit, precisely adjustable with a grippy wheel.

Ponytail

The specially shaped slot within the adjustment system offers sufficient space for long hair or a ponytail.

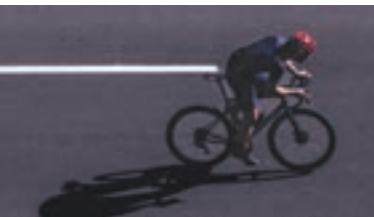

MADE FOR EXTREMES

The name speaks for itself. AirBreaker – a road helmet made for perfect ventilation and aerodynamics. The AirBreaker makes no difference whether you are fascinated by high mountains, long distances or high speeds.

Outstanding ventilation, best aero data and a weight you barely feel makes the AirBreaker your top model in every race. Keeping a cool head for all high performances.

Hanka Kupfernagel - World Champion
Individual TimeTrial 2007

D. ISTANCE

Best ventilation for endless distances.

A. LTITUDE

More ventilation on the way to the top.

S. PEED

Lowest drag at top speed.

H. EAT

Ideal head climate in extreme heat.

THE WORLD CHAMPION'S HELMET

Only road helmets of ABUS wear the rainbow design. Evidence to their perfection. With the AirBreaker, Alejandro Valverde became the best rider in the world. And like the world champion, all riders of the Movistar Team trust in the AirBreaker as their performance helmet. In the most important races in the world, the AirBreaker meets the requirements of the professionals.

A HELMET BY PROFESSIONALS FOR PROFESSIONALS

With the aero helmet GameChanger, ABUS caused a revolution. Its contemporary design and innovative technologies build the platform for the AirBreaker. In extensive development work together with the pro riders of the Movistar Team and a constant testing in the wind tunnel, the AirBreaker has been optimized for the best ventilation and aero performances.

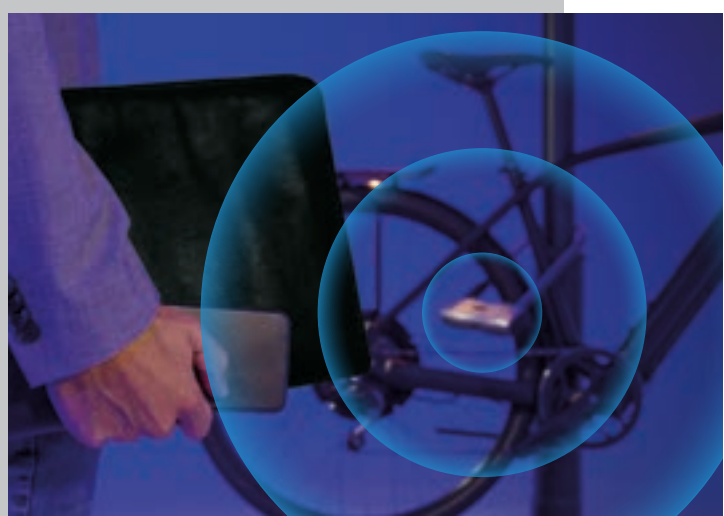

770A SMARTX™ SMART IS THE KEY

HANDS FREE

Your smartphone turns into a key. A keycard connects the corresponding ABUS app (iOS or Android) to the lock.

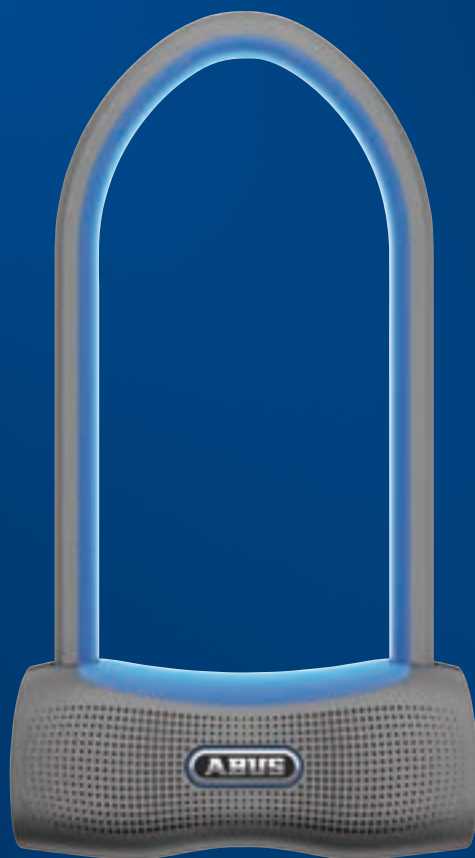

When users approach their bicycle with their smartphone, the smartphone unlocks the lock. To open it, just pull the shackle out of the body of the lock. Locking works exactly the other way around: push the shackle in, activate the alarm, walk off, be secure!

BLUETOOTH®

The 770A SmartX™ is the first ABUS U-lock with a Bluetooth® receiver. The lock receives its signals from the smartphone over this encrypted channel, which is just as secure as the lock itself and more individualized than any key.

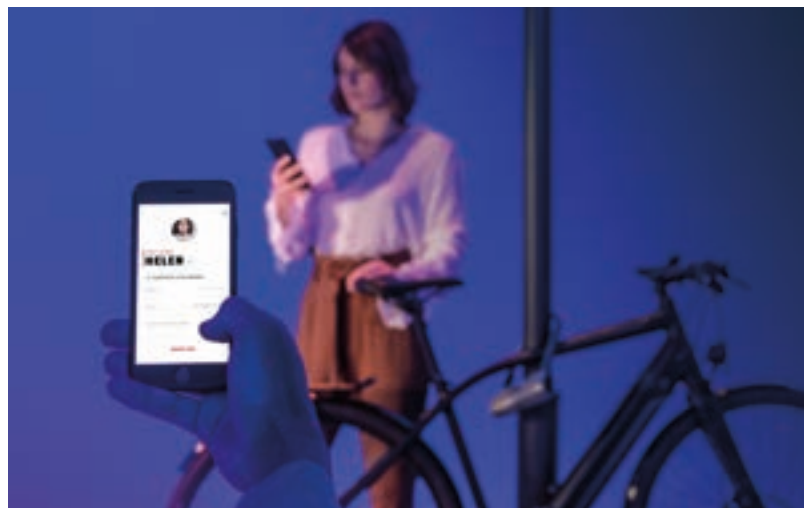

Made in Germany

SMARTX APP

Each 770A SmartX™ can be used by multiple persons. The decision whether a person is granted limited-time or permanent access is up to the administrator. For the cargo bicycle behind the house or the children's trailer at the nursery—this is how families lock in the twenty-first century!

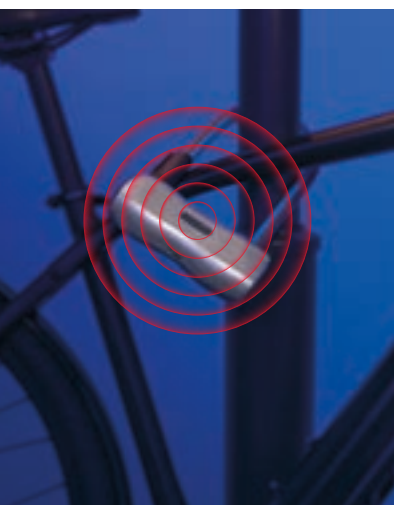

ALARM

The 770A SmartX™ provides added security with its integrated alarm function. The 3D Position Detection detects slightest movements and triggers a deterrent alarm. If slightly touched, the lock issues only a short warning sound. But if the sensors detect a theft attempt, the alarm sound increases its volume to a deafening 100 decibels.

AUF EINEN BLICK

-  Hands free: locking and unlocking via smartphone
-  Lock with 100 dB alarm function
-  Rechargeable battery
-  Dual locking of the shackle in the lock body

INTELLIQUIN SMART SYSTEM – POWERED BY ABUS

This ABUS Quin helmet provides a first-of-its-kind safety system with a holistic approach. Whether you have crash or need to stay on-the-move, this helmet has safety protocols that are there for you when you need them. The fully integrated Q-Sensor is a ground-breaking addition to ABUS helmets that is capable of detecting when you're in danger. The Q-Sensor employs a complex algorithm measuring factors like impact, changes in velocity, concussion threshold, rotational and a linear inertial changes and more. The ABUS Quin helmet alerts your emergency contacts of your situation and location so they can coordinate assistance.

AirBreaker

The AirBreaker is the ultra-lightweight helmet for professional road cycling and is developed in close cooperation with the Movistar Team. The helmet provides perfect ventilation with optimal aerodynamics. The honeycomb structure of the innovative Multi Speed design offers the ventilation as needed: maximum ventilation on slow, hilly stages and optimal aerodynamics on fast, flat stages.

Aventor

Alpe d'Huez, Mont Ventoux, Col du Tourmalet. When you need maximum ventilation at high temperatures, the Aventor is simply a must-have. With its generous air intakes, it offers the best ventilation options on the market. The built-in ActiCage is firmly connected to the EPS and offers additional security.

INTELLIQUIN SMART SYSTEM, PROVIDED BY ABUS

This ABUS Quin helmet provides a first-of-its-kind safety system with a holistic approach. Whether you have crash or need to stay on-the-move, this helmet has safety protocols that are there for you when you need them. The fully integrated Q-Sensor is a ground-breaking addition to ABUS helmets that is capable of detecting when you're in danger. The Q-Sensor employs a complex algorithm measuring factors like impact, changes in velocity, concussion threshold, rotational and a linear inertial changes and more. The ABUS Quin helmet alerts your emergency contacts of your situation and location so they can coordinate assistance.

MonTrailer ACE MIPS

Ever more demanding trails and better riding skills demand more protection. This increased need for protection is covered by the MonTrailer. The EPS, combined with the five surrounding outer shells of polycarbonate and the ABUS ActiCage, make this helmet secure and robust. The MIPS can also offer extended protection in case of a glancing blow to the head. The transparent visor ensures an excellent view in all directions without taking your eyes off the trail.

Pedelec 2.0 ACE

With the Pedelec 2.0 ACE ABUS offers a bicycle helmet that meets the high safety requirements in cities. With its lower temple- and neck protection the helmet offers extra safety. In addition, the Pedelec 2.0 ACE features a build-in rain cover that can quickly be pulled over the helmet at the first drops of rain. The extra bright, rechargeable light, the GlowStraps and the visor provide additional, passive safety for the cyclist.

Hyban 2.0 ACE

With the Hyban 2.0 ACE freezing airstream and insects are a thing of the past. Simply pull down the generous outside visor and enjoy the view without any airstream in your eyes. The integrated topgrids, which can be removed optionally, provide additional protection against the cold wind or insects.

Yadd-I #credition

Everybody expects a bicycle helmet to provide protection. But wearers of the Yadd-I #credition can even expect their helmet to match their personal bicycle. With its angular, reduced form and its fresh, eye-catching designs, the Yadd-I #credition stands out from the crowd and shows individual character. Yadd-I #credition – Design your head.

Yadd-I

With its angular, reduced form, the Yadd-I looks good in any urban scene. Its three intelligently located ventilation channels offer outstanding ventilation. The practical „Soft Tune System“, thanks to a flexible rubber pull, only needs to be adjusted once – no more bothersome back and forth with the adjustment system.

Yadd-I Kid

With the Yadd-I Kid, children are not only safe, but also eye-catchingly fashionable on their bikes. Its angular design looks great and stands out from the crowd. Thanks to the innovative Soft Tune System, the helmet only needs to be adjusted once. After that, it can be put on and taken off in no time – like a baseball cap.

Anuky

The Anuky is the perfect model for getting started in the road traffic world. With its slightly flattened back, it's good for riding in the child seat or trailer or for taking those first few independent feet on the tricycle or bike. With its visor-like front edge and the low cheek and neck areas, it provides increased safety for the particularly sensitive regions of your child's head.

Smiley 2.1

The Smiley 2.1 is the perfect helmet for toddlers with training wheels or along for the ride in a child seat on mom or dad's bike. The slightly flattened back of the helmet allows the child to sit comfortably and relaxed in the seat. Additionally, the rear light and large-area reflector of the Smiley 2.1 provide additional, passive safety.

Smooty 2.0

The Smooty 2.0 is a low-cost entry-level helmet for toddlers. The slightly flattened back of the helmet allows the child to sit comfortably and relaxed in the seat. An entry-level helmet with cute and lovely designs.

ALEJANDRO VALVERDE

2018 UCI WORLD CHAMPION
WITH THE AIRBREAKER

At ABUS, we support the love of athletes for cycling and our helmets will ensure that you reach your destination – safely! With the Movistar Team, the most successful team in recent years, ABUS supports the world’s best cyclists and the outstanding team spirit. In our partnership, the team does not only showcase the ABUS brand in the top-class of cycling, it also offers valuable insights for the continuous development of our helmets. 26 cyclists from eight nations provide invaluable feedback – a partnership between equals, which makes a significant contribution to helmets at the top level. This is how we are able to guarantee top quality and a great value for money.

ABUS wishes the Movistar Team much success!
