About **Bobike**

***Explore
the world
safely***

It is so fun (*and healthy*) to explore the world by bike. To experience adventures with your child, feel the wind blow through your hair and feel the sun on your face.

All this with your baby safe & secure in a **Bobike bicycle safety seat**.

*Bobike has been developing, designing, and producing safety seats since 1978. Bobike's bicycle safety seats are designed in the Netherlands, produced in Europe, and can be recognized by their stylish, modern look. Bobike's safety seats have won several awards, including an iF Design Award. **We move through life by bike.** And when you use a product that often, we believe it should look damn good. That's why the Bobike collection is continuously updated. Our designers have a passion for fashion and interior design. They closely follow trends to make sure our safety seats match the bikes currently in the market perfectly. This shows in the colors we use and in the details you find in our safety seats which make them unmistakably Bobike.*

Are you ready to start exploring? Bobike has a vast collection of products to support your ***adventures safely and in style*** and to introduce your ***children to a happy and healthy lifestyle in a fun and playful manner.***

double-walled

We take safety seriously

Although Bobike offers several different models of safety seats, our focus when designing a seat is always the safety of the child that will be transported in the seat. Which is why every single **Bobike model features a double-walled construction.**

A double-walled construction consists of **two sturdy walls**. The inner-wall that is in contact with the child's back, is slightly softer to ensure a comfortable ride. The outer-wall is more sturdy and rigid and is designed in order to create a void between the two walls and therefore the child.

If the seat gets impacted, it won't touch the child.

We often talk about double-walled safety, a feature that is unique to Bobike, and hopefully now you understand what we mean. **But if you care as much about your child's safety as we do, you only need to remember one thing; Bobike.**

For more information on double-walled safety, visit <https://bobike.com/en/page/we-take-safety-serious>

double-walled

Obsessed *with safety*

At Bobike, we live and breathe safety. It might not be the coolest thing to do, but you'll appreciate us for it. **Quality control, performance analysis, and safety tests are the most important parts of product development.** Of course, we comply with all legal requirements and meet the highest industry standards, but we don't stop there. We have built our own modern quality control center with all the technology required to ensure that our products comply with the standards imposed by regulatory bodies. **But when we test, we double the standard. It's how we roll.**

GO® mini accessories and spare parts

Handlebar With Support Roll

Some kids like to participate while riding with you on the bike. The Bobike handlebar lets them pretend they're steering too. And when they're exhausted, the support roll is there to catch them when they fall asleep. The handlebar with support roll fits Bobike GO mini seats and does not interfere with the placement of a windscreen.

Ref. 8015300165

Rain Cover mini

Protect your Bobike safety seat from rain, snow, or hail with a rain cover that fits your Bobike GO mini seat. The rain cover comes in a nice travel case, so it's really easy to store and carry with you.

Ref. 8015300044

one plus helmets

safety helmets xs & s

Let's brighten up the streets. Our Bobike ONE safety seats are available in nine colors and we have helmets to match each and every one of them. The colorful matte helmets feature an in-mold construction and an expanded protective area to increase safety. The adjustable dial retention system ensures a perfect fit. The chin straps are soft and lock in a 3-point safety harness. Two rear reflective stickers increase visibility when it gets dark out. A bug net will keep your child safe from flying insects and 10 cooling vents keep your child's head cool.

CLASSIC

CLASSIC **junior**

Our Classic Junior has been the go-to junior seat for many years now. No frills, just a sleek, functional design. It offers support for children that are old enough to sit independently on the back of your bike but cannot quite cover longer distances by themselves. The lap belt keeps them from standing up. The seat includes a convenient bag bracket and when not in use, the seat folds down and can be used as an object carrier.

Every brand needs a good Classic

CLASSIC junior

rear bicycle safety seat for frame mount

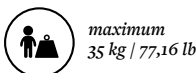

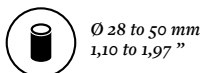

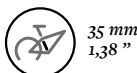

Mounting bracket for bikes without a carrier. (seat tube)
For round tubes Ø28-50mm.

The Bobike Classic Junior can carry up to 35 kilograms. The seat is equipped with a lap belt so that your child cannot stand on the back of the bike. The seat also includes a convenient fold away bag bracket to offer you some additional storage and, when the seat is closed, you can use it as a multifunctional carrier. Suitable for children between 5 and 10 years old or with a maximum bodyweight of 35kg.

The Bobike Classic Junior comes with mounting hardware for attachment to the seat tube.

This attachment fits round tubes with a diameter of 28-50mm.

safety

Extra feet protection.

Wheel protection included.

The hip belt prevents children from standing up.

The footrests offer ergonomic support.

The feet protection plates prevent little feet from getting caught between the spokes.

comfort

Adjustable footrests – tools required.

Adjustable lap belt.

other features

Slim & foldable design (space saver).

Classic style.

Can also be used to carry an object or a small bag.

Convenient bag bracket included.

bobike **balance bike**

bobike **balance bike**

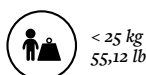

The Balance Bike is a training bike suitable for children from 2 – 5 years. The Balance Bike helps little ones to learn how to steer, keep their balance, and develop their motor skills. It is literally the very first step to learn how to ride a bike yourself.

*To keep your **balance,**
you must keep **moving.***

bobike **balance bike**

training bicycle for toddlers

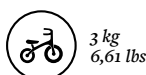

The Balance Bike has a built-in handlebar limiter that helps the little rider to control how far he or she turns the handlebars. The handles are made of comfortable rubber. The ergonomically shaped saddle is adjustable in height so that the child can enjoy the balance bike for as long as possible. The shock-absorbing 240 mm wheels made of EVA material offer extra comfort and cannot be punctured. The Balance Bike comes in two color combinations.

Bobike on trend

Bobike interviewed two successful instagrammers in Netherlands, considered social media influencers, to find out what they think about Bobike bicycle seats. We had the chance to learn more about their lifestyle and preferences on a daily basis.

Bo Wilkes

Mother of two children and one more on the way. Full-time mom and social media influencer.

#prettiestcolors

How did you first come in contact with Bobike?

When I had my firstborn son, I received a gorgeous Bobike ONE safety seat at my baby shower!

What feeling does Bobike give you?

Bobike gives us the feeling of safety and comfort without compromising on looks. The seats are absolutely gorgeous.

What was the deciding factor in choosing Bobike safety seats?

Color!

All Bobike seats are double-walled (and therefore extra safe) unlike most other brands. Did that affect your choice?

Absolutely. Safety is the most important.

How often do you use your bicycle?

I personally think riding my bike with two kids is pretty hard work haha. We also live on a slight hill, so riding back to our house is a hard workout. I truly believe I should ride my bike more often, so I am looking into an electric bike or maybe a transport bike since I am soon going to be a mommy of three kids and my oldest son is not ready to cover longer distances by himself.

What does your favorite bike ride look like?

My favorite bike ride definitely includes nice, sunny weather and is mostly downhill haha.

I will make my decision based on **safety and design.**

How do your children experience a bike ride?

They love coming along for a bike ride! They point out everything they see along the way. After about half an hour, their heads get heavier and usually that's when they fall asleep.

What is an absolute must for a bicycle seat?

The seat must look nice on the bicycle so a cool design and a pretty (matching) color are a definite must.

Pauline

Mother of two sons. Social media influencer and vlogger.

How did you first come into contact with Bobike?

When I was looking for a bicycle seat for my oldest, the Bobike seats drew my attention because of the beautiful colors (matching my bike!).!

Bobike gives me a feeling of safety and at the same time I feel on trend.

What was the deciding factor in choosing Bobike safety seats?

The design and the many color options.

All Bobike seats are double-walled (and therefore extra safe) unlike most other brands.

Did that affect your choice?

I honestly assumed that all the bicycle seats in the Netherlands would be very safe, but now that I know this, I am even happier with my bike seats!

How often do you use your bicycle?

As soon as the weather permits, I pick up my oldest son from the playgroup by bike. In addition, on the weekends to enjoy the outdoors.

What does your favorite bike ride look like?

Cycling with the children to a nice terrace with a large playground: then the adults can enjoy a cup of coffee or a beer/wine, while the children can enjoy themselves and play. We like to cycle to a tea house with a gnome path in Naarden. There is a lovely terrace and the children can play.

How do your children experience a bike ride?

Both my sons are singing on the bike! They love it and enjoy it immensely.

Design, color, price, and for the quality of the seats.

What is an absolute must for a bicycle seat?

With regard to accessories, I would still like to have a head-rest for the front seat in case my youngest falls asleep on the bike. And a handle to steer, they would love that. Furthermore a color that matches nicely with my bike.
