LOCKS

Double locking

Dual locking of the shackle in the lock body

Pocket size

Lock in small format

XL size

Lock in large format

LED key

Illuminated LED key

Automatic locking

No active locking with a key required

Robust webbing

High-tech mesh, durable and hydrophobic

Individual code

Combination code can be freely selected

Rechargeable

Rechargeable battery

Universal fitting

Thanks to the variable mounting slots the lock can be attached to all common frame fittings

Battery

Including battery

Flexible loop

Two infinitely adjustable loops allow best possible use of the locking range

Protected against battery angle grinders

Wolfram-Carbid reinforced to protect against attacks with battery angle grinders

SmartX

Innovative locking system, controlled via smartphone

XPlus

Picking-resistant disc cylinder Plus

Lightweight

Light weight lock, ideal for performance riders

Alarm

Lock with 100 dB alarm function

Fingerprint

Easy to open with a fingerprint

Waterproofed lockbody

Waterproof lock body to protect the electronics from moisture damage

OEM

Locks are delivered without sales packaging so they can be mounted more quickly. Ideal for use in workshops

One Key Option

Multiple locks can be produced keyed alike and thus operated with one key

HELMETS

Bug mesh

Full protection from insects

Ponytail compatibility

Perfect fit for people with long hair

Half-ring

Adjustable ring connected to adjustment system enclosing half of the head

Full-ring

Adjustable ring connected to adjustment system enclosing all of the head

ActiCage

Structural reinforcement integrated into the EPS to optimize stability

XL Size

Large helmet sizes available (62+ cm)

Ventilation

Number of air intakes and outlets

ABUS - MADE IN GERMANY

When August Bremicker and his sons founded ABUS in 1924, they had a lot of experience with engineering and craftsmanship – as well as a very clear vision: They wanted to create products that protected human life and property. It was a far-sighted corporate goal – paired with an expectation for quality right from the start. It was the start of a continuous success story. The ABUS brand became a synonym for security world-wide.

HIGH-QUALITY MATERIALS

To be able to offer consistently high quality and security against every type of brutal and intelligent attack technique, we use the highest-quality materials at every price level. Complex hardening processes guarantee the best resistance in our materials. Our internal quality management check all materials before and during the production process to ensure every product has the high quality you demand.

THE KEY TO SUCCESS

At ABUS, we design and build the tools and machines used in the production of our products in-house. That bundles knowhow, guarantees jobs, and strengthens identification. Our own engineering and toolmaking department concentrates exclusively on the development of bicycle and motorcycle locks. This ensures that we meet the tough requirements you place on your bicycle or motorcycle lock every day.

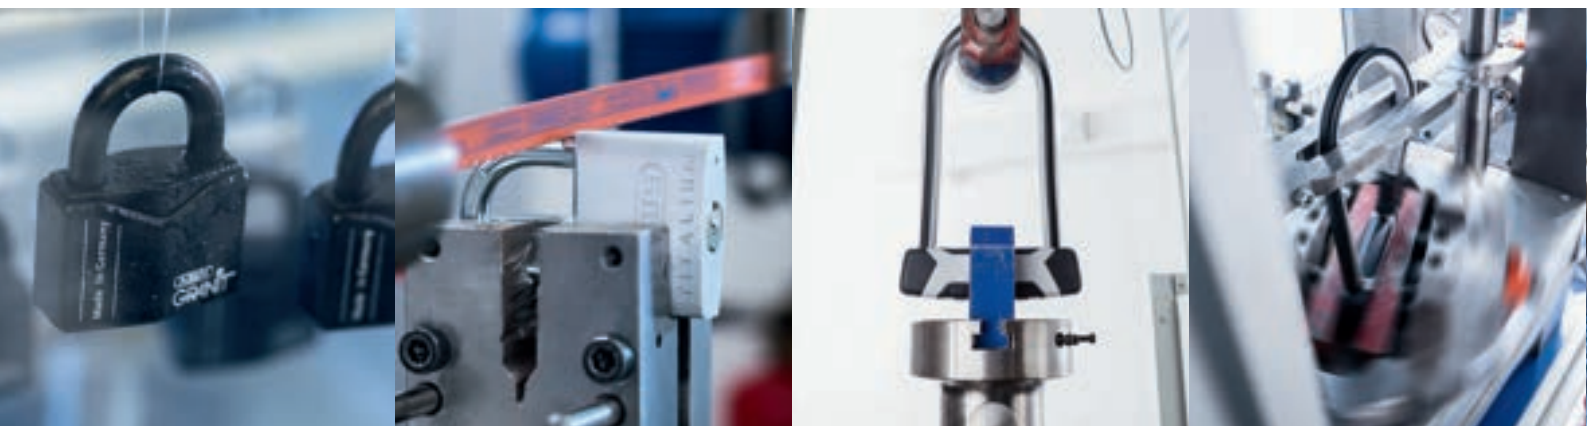

ENSURING CONSISTENCY

In our own ABUS test laboratory, we routinely carry out tests and attacks on our products to ensure our products offer consistently high quality.

Among others we make sure our locks are resistant to:

- Ice spray attacks and freezing conditions at -40°C
- Twisting, pulling, hammering and sawing attacks with help of our manual or machine tests
- Rust by simulating highly corrosive weather conditions

Made in Germany

APPROVALS

ABUS locks are tested and approved by independent testing institutions in a number of European countries. As every test lab use different tools, techniques and machines to test both security and quality we are very proud of the high number of different approvals given to ABUS products. If a lock can pass the varying test requirements in many different countries you can be sure it is of the highest possible quality and security.

The following seals of approval confirm the outstanding security of ABUS cycle locks:

Svensk Brand- och
Säkerhetscertifiering AB
Stockholm, Sweden

Norges Forsikringsforbund
Oslo, Norway

Dansk Varefakta Naevn
Copenhagen, Danmark

Finanssiala
Helsinki, Finland

FUB 2-roues
Valence, France

Test Seal VdS
Cologne, Germany

ABUS Seal for Ice Spray Test
Volmarstein, Germany

ONE KEY™ SIMPLE . INDIVIDUAL.

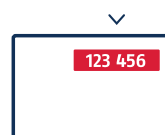

HAVE CUSTOM BIKE LOCKS MADE - OPERATE EVERYTHING WITH JUST ONE KEY!

A primary lock, a frame lock, a padlock, and even a battery lock for e-bikes – if you want to secure your bike properly, you need a lot of locks. That is why we at ABUS, with the ONE KEY system, offer the ability to produce locks for your customers in such a way that they can all be operated with one key. No mess, no looking for keys.

HERE'S HOW IT WORKS

The order is conveniently placed via the Partner Portal.

1. Read key code from code card

2. Choose suitable products at your retailer

HOW ONE KEY™ WORKS

It's quite simple. Each ABUS lock has an individual key code with which spare keys or matching keyed alike locks can be made – even years after purchase. All that matters is that the locks from ABUS have the same type of cylinder installed.

3. Wait 1 week to manufacture your custom product

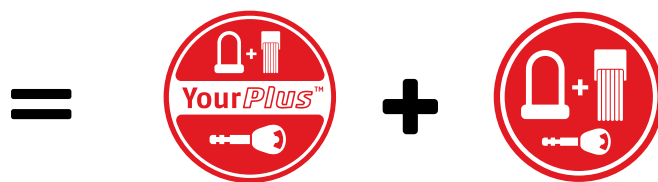

4. Pick up at retailer or ship to home

FAMILIAR FACE – NEW DESIGN

As a manufacturer of cylinders and bicycle locks, ABUS has the unique opportunity in the market to manufacture custom locks so that they can all be operated with one key or keyed alike. It is important that the locks be compatible with each other for this purpose.

So far we have marked our products and campaigns with these icons

With ourPlus, we have combined all locks that have a Plus cylinder.

This icon currently indicates that this lock can be keyed alike.

FROM NOW ON, WE'RE BRINGING EVERYTHING TOGETHER UNDER ONE KEY™ – A CLEAR PROMISE FOR MORE CONVENIENCE.

THE ABUS LEVEL SYSTEM

Finding the right lock for your customer requires a few questions that can help in the selection process. A lock must not only be secure, it must also suit the user.

The questions below can help you figure out what your customer is looking for:

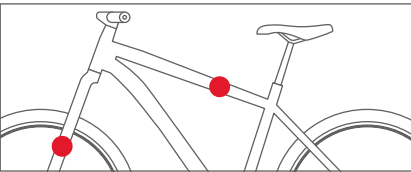

n the sales conversation, you get the best feel for your customer and a sense for what they value. Many questions are rather soft factors and have an influence on the choice of the lock, but not so much on the choice of the appropriate security level.

The most important factors in determining the level of protection required are the bicycle value, location and length of time the bike is left.

For this, we recommend the following reference:

	Rural region	Suburban	Urban
			
Quickstop	 - 	 - 	 - 
Few hours	 - 	 - 	 - 
All day	 - 	 - 	
Overnight	 - 		

Lock your bike in illuminated and well frequented areas. Secure you bike to an immovable object and lock both, frame and front wheel. Keep the lock as high as possible and pass it through the frame as much as you can. This makes it harder to attack.

FEATURES

TECHNICAL DATA

- hardened 2 mm square parabolic shackle with plastic coating
- The lock shackle and body are better protected against brutal cutting attacks by battery angle grinders thanks to a special tungsten carbide compound material
- Double locking of the shackle in the lock body
- The shackle, housing and structural parts of the locking mechanism are made of specially hardened steel
- ABUS Plus cylinder for extremely high protection against manipulation, e.g. picking
- ABUS Power ell technology offers maximum protection against impacts and attempts to break open the lock
- Two keys included in the scope of delivery
- ABUS code card for spare and replacement keys
- Flexible and firm holder fixation with coated metal fixing straps

FRAME LOCKS

We want to help you find the right frame lock for your customer’s bike even faster in the future. The dimensions below should help you with this.

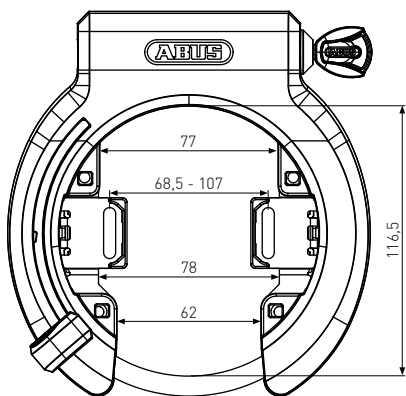

- a Maximum mudguard width
- b Maximum hole spacing of rear mounting points
- c Minimum hole spacing of rear mounting points
- d Maximum tire width
- e Maximum height clearance top of mudguard vs rim

You will find an overview of all dimensions on the next page. In addition, you will also find all relevant dimensions on each product page in the tables.

GRANIT XPLUS™ 6950

SECURITY LEVEL

FEATURES

TECHNICAL DATA

- 8.5 mm thick locking shackle
- The shackle, housing and structural parts of the locking mechanism are made of specially hardened steel
- Closing mechanism for simple connection of accessories in the lock housing
- ABUS XPlus cylinder for the greatest protection against manipulation such as picking
- In the R variant, the key remains in the cylinder when the lock is opened; in the NR variant, it can be removed
- Hole spacing for mounting is universally adjustable

TECHNOLOGY

TEST SEALS

1) VK 38581 2) only for R-variants.

FIRE STOP AFS625

TECHNICAL DATA

- 625 ml highly effective foam extinguishing agent
- Easy to use ust like a conventional spray can
- Spraying range (max. distance between source of fire and user) up to 4 m
- Spray time approx. 25 seconds
- Weight: approx. 900 g gross
- Shelf life: 39 months
- Suitable for fighting incipient fires of fire classes A, B and F
- Fire class 5A solid and non-melting substances
- Fire class 2 B liquid and melting substances
- Fire class 5F cooking fats and cooking oils
- Also for use with electrical systems of up to 1000 V (distance of at least 1 m)

797 KEYGARAGE™ ONE

TECHNOLOGY

TECHNICAL DATA

- Sturdy metal housing provides secure storage space for keys and valuables
- Up to 20 keys, up to 3 car keys or 30 plastic cards fit in the key box compartment
- There are 2 hooks for hanging keys or key rings
- Smart operation and management of the KEYGARAGE with the free HomeTec Pro Bluetooth or ABUS One apps
- Overview of key box use in the app's clear event log
- Automatic locking after the compartment is closed
- Illuminated keypad for convenient input of the numeric code in the dark
- LED for status indication (unlocked, locked, incorrect PIN and low battery)
- Battery compartment for 2 AA batteries, accessible from the outside
- For secure storage of keys or small valuable objects for authorised persons
- Quick and easy access for frequently changing groups of people e.g. tradespeople, service staff, holiday guests, vehicle hire customers, care service
- Share access via an individual six-digit numeric code or by invitation to a smart phone
- Mounting with shackle for flexible and temporary use indoors or in protected outdoor areas e.g. on door knobs, railings or handles
- Storage of whole key rings possible thanks to the large internal compartment
- Real time remote access to all functions such as unlocking, locking, viewing event logs and managing access permissions via the separately available BRIDGE One.

787 BIG LED KEYGARAGE™

TECHNOLOGY

TECHNICAL DATA

- Solid metal housing
- Locking cover made of zinc die-cast
- 4 digit individually settable code
- Illuminated dials for a better legibility in dark conditions
- LEDs light up ca. 30 seconds
- Coin cell battery 2032 can be easily replaced, durability of battery when used per day approximately 2 years
- Protective cover with sliding mechanism
- For wall mounting with screws
- Can hold up to 20 keys or 14 code cards (787 LED) or up to 30 keys or 50 code cards (787 BIG LED)
- Easily removable clip-in hooks guarantee consumer's comfort
- Outer dimensions of housing: 84 x 120 x 42 (787 LED) / 84 x 120 x 62 (787 BIG LED)
- Ideal protected storage of keys and other valuables for authorised persons
- Quick and easy access for frequently changing groups of persons: craftsmen, service, holiday guests, apartment buildings, car rentals
- Defining access by setting and passing on the code
- For wall mounting indoors and in protected outdoor areas

TECHNICAL DATA

- Solid aluminium lock body with anodized coating – corrosion resistant
- Spring loaded shackle for a better setting of the opening code
- 145/20 and 145/30: Individually resettable 3-digit code
- 145/40: Individually resettable 4-digit code
- Handy operation without key, low weight
- High value of recognition by intensive colours
- 145/20 and 145/30: To secure valuables/goods of lesser value or at a low risk of theft
- 145/40: To secure valuables/goods of medium value or at an average risk of theft
- E.g. to secure luggage, lockers in schools and sports centres, cash boxes, metal cases, cupboards, tool boxes, switchboards, etc.

24IB DISKUS®

TECHNICAL DATA

- Lock body, inner parts and shackle made solely from stainless steel for extreme resistance to corrosion
- Cylinder cover maximum protection against dirt and water spray 0 mm and 0 mm only
- Nickel-plated cylinder for enhanced weather protection
- Original Diskus design 30° protection
- Diskus Deep Welding Technology the best in break in protection
- Precision pin cylinder
- Key retaining: locking only with the key (key cannot be removed while the lock remains open)
- Made in Germany
- For the protection of larger assets and objects with a high risk of theft
- Ideal for severe weather conditions (e.g., in sea and port areas, for securing vehicles and boats in outdoor use)
- For securing trucks, doors, gates, barns, cellars, cupboards, etc.

20 DISKUS®

FEATURES

TECHNICAL DATA

- Stainless steel outside and inside
- Additional protection against sawing
- Shackle made from high quality stainless steel
- ABUS Plus disc cylinder highest protection against manipulation, extremely high number of key differs
- Cylinder cover maximum protection against dirt and water spray
- Sophisticated Diskus welded seam for highest break resistance
- Original Diskus design 30 protection
- Key retaining: key is needed for locking (lock retains key until locked)
- SZP: comes with security card to protect against unauthorized key duplicates
- Made in Germany
- 2 keys
- To secure valuables/goods of great value or at a very high risk of theft
- To secure e.g. warehouses, industrial sites, factory gates, containers and lorries
- Ideally used with ABUS Diskus Hasp 140: virtually impossible to attack shackle

CARRIER SH B

TECHNICAL DATA

- Universal shackle lock holder for many ABUS U locks
- The holder is suitable for U locks with up to a 4 mm square as well as a 6 mm round shackle
- Allows the lock to be transported to different places on the bike
- The holder allows for vertical or horizontal attachment to the frame
- Suitable for U-locks 640, 540, 470, 460
- Fast and intuitive handling
- Suitable for frame diameters from 20-55 mm
- Universal bracket for the use of various U locks

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket S B	67899 8		150	for 640, 540, 470, 460	1

BRACKET USKF

TECHNICAL DATA

- Transport of U shackle locks
- Mounting on round frames with a diameter of 18-70 mm
- Plastic bracket with rubber inlays for best mounting
- Comfortable one hand operation
- Easy and quick mounting

Ref. No.	EAN 4003318	Weight g	Carrier	Box Qty
Bracket USKF	86143 7	65	for 64/46/47/770A/540/460/470/640	1

BRACKET EAZY KF™

TECHNICAL DATA

- Transport of U shackle locks
- Mounting on round frames with a diameter of 28 - 35 mm
- Screws in two lengths included
- Plastic bracket for mounting with rubber inlays for best hold
- Indent marks on the bracket to simplify subsequent mountings
- Comfortable one-hand operation
- Very quick mounting
- Patented design

BRACKET GH 50

TECHNICAL DATA

- Transport of round U-shackle locks with a diameter up to 17 mm
- Mounting on the side of the rack
- Plastic bracket for mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket GH 50	00904 4		196	for ABUS No. 64, 51, 47, 46, 470, 460, 32	1

BRACKET UGH 02

TECHNICAL DATA

- Transport of Steel 0 Fle and other locks
- Mounting on the rack stays with a diameter of 5 - 16.5 mm
- Universal solution for all common racks
- Simple and time saving mounting

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket UGH 02	26624 9		80	for 950, 970, 1025, 1050, 8200, 8220, 7200, 7220	1

SHACKLE CLAMP

TECHNICAL DATA

- Accessory for the transport in a TUBUS LOCC U-shackle lock carrier, TexKF T in or BKFT in

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Shackle Clamp 12mm	25604 2	Ø 12 mm	21	for 46, 47, 460, 470	1
Shackle lamp	27348 3	Ø 13 mm	30	for 540	1

BRACKET SH SF SADDLEFIX

TECHNICAL DATA

- Universal adapter for space saving attachment of various BORDO locks to saddle stays
- Our desired BORDO lock can be fixed to the adapter together with the corresponding bracket
- A rain cap is included in the scope of delivery as splash and weather protection for your BORDO lock
- The holes on the adapter are analogous to those on a water bottle holder, so that this or the SportFle lock could also be fixed to the adapter
- Screws are included in the scope of delivery
- Adapter for attachment to the saddle
- Suitable for brackets SH 5700, 6000 and 6500
- Practical rain cover and protection against dirt and moisture

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH SF	67866 0	with rain cap	121	for SH 5700C/80, SH 5700K/80, SH 6000C/90, SH 6000K/120, SH 6000K/90, SH 6500/85	3

BRACKET SH 6500A ONE

TECHNICAL DATA

- For easy transportation of the BORDO 6500A One
- Simple mounting with fitting strap or elcro strap
- Does not require much space, as the lock can be removed from the front
- Ideal for small frame geometries

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6500A One	63488 8		148	for 6500A/110	1

BRACKET SH 6500K BORDO™

TECHNICAL DATA

- For easy transportation of the BORDO 6500K and 6500KA
- Simple mounting with the supplied tensioning straps
- Fits in compact spaces thanks to front loading of the lock
- Ideal for smaller frame sizes
- Solution for the secure transport of locks on the bike

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6500K/90	69051 8		195	for 6500KA/90, 6500K/90	3
Bracket SH 6500K/120	96279 0		230	for 6500K/120	1

BRACKET SH 6500 BORDO XPLUS™

TECHNICAL DATA

- Easy transport for BORDO™ 6500
- Simple mounting due to practical mounting straps
- The lock can be easily removed for ards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6500/110	61556 6		172	for 6500/110	3

BRACKET SH 6200K

TECHNICAL DATA

- For easy transport of the BORDO™ 200K
- Simple installation thanks to practical fitting strap holder
- Does not require much space, as the lock can be removed from the front
- Ideal for small frame geometries

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6200K/90	94474 1		165	for 6200K	3

BRACKET SH 6000 BORDO™

TECHNICAL DATA

- Easy transport for BORDO™ 6000, 6015 and 6100
- Simple installation due to practical mounting straps
- The lock can be easily removed for ards
- Perfect for small framed bikes

Ref. No.	EAN 4003318	Version	Weight g	Carrier	Box Qty
Bracket SH 6000/90	61543 6		115	for 6000/90, 6000K/90, 6000KA/90, 6000C/90, 6000A/90, 6100/90	3

BRACKET SHFL BORDO MONKEYLINK

- TECHNICAL DATA**
- For easy transportation of the BORDO 6000K/90, 6000C/90 or the 6000KA/90
 - Simple and super fast magnetic attachment to the Fidlock TW ST bike base
 - Does not require much space, as the lock can be removed from the front
 - The BORDO 6000K/90 and 6000C/90 are also available individually without brackets
 - Fidlock TW ST base is not included

STRONG SERVICE PARTNER, RELIABLE SUPPLIER ABUS AS OEM PARTNER – YOUR FIRST CHOICE

In the bicycle market, the factors of success are added value, differentiation, flexibility, availability, fast service and high capacity. Suppliers that work with bicycle manufacturers have to meet the corresponding requirements. ABUS meets them.

Allow us to take advantage of mutual synergy and implement it to our shared success!

Our OEM team looks forward to hearing from you at oem@abus.de

As a globally experienced specialist in bicycle security, we offer you the best possible support and a high level of reliability. For years, ABUS has been a synonym for security, and has earned a leading position in the bicycle accessory market.

We hope to continue our good cooperation with leading bicycle manufacturers!

Quality Made in Germany and fast in time deliveries concentrating on these core competences has made us an important partner for many bicycle manufacturers worldwide. We are also a strong partner on the OEM market, offering a wide selection of frame locks, integrated security solutions, and many individualized products. Among others, we offer keyed alike locks and battery cylinders for e-bikes.

CUSTOM SECURITY

Custom security solutions are not just a trend, but also a very convenient way for cyclists to secure their beloved bicycles. Take advantage of our more than 100 years of experience, and set yourself apart from the masses with a customized security solution.

REMOTE CONTROL BRAKE LIGHT HYP-E

TECHNICAL DATA

- Remote control for controlling the brake light for the ABUS P E helmet model and the P E A E and P E BL.A E variants
- Cover for the brake lever on the handlebar
- When the brake lever is pulled, the brake light on the P E is activated by a predefined pressure point
- Additional push button on the brake lever to activate the head warning light on the front of the helmet
- Compatible with most common brake levers for urban bikes
- Remote control is permanently ready for operation and is activated via the helmet's radio signal

Ref. No.	EAN 4003318	Colour	Size	Box Qty
Remote control Brake Light	40429 0	black	universal	1

MAGNETIC VISOR HYP-E

clear

smoke

photochromic

TECHNICAL DATA

- Made from hard wearing polycarbonate
- Flexibility thanks to Magnetic Hub visor is not a permanently installed component, but can be flexibly attached, removed and replaced
- Visor for the ABUS P E helmet model and the P E A E and P E BL.A E variants
- Optionally available in clear e.g. at dusk, smoke e.g. in bright light or photochromic automatically adapts to light conditions variants
- The visor can be attached to the helmet quickly and easily using the patented Magnetic Hub
- Visor design enables clear all round vision at any head angle

Ref. No.	EAN 4003318	Colour	Size	Box Qty

REMOTE CONTROL INDICATOR LIGHT (HYP-E)

TECHNICAL DATA

- LEDs on the remote control indicate when flashing is taking place by means of a visual signal
- Remote control for controlling the flashing lights for the ABUS P E helmet model and the P E A E and P E BL.A E variants
- For mounting on the handlebar simply attach to the handlebar using the supplied rubber ring
- Compatible with all standard bicycle handlebars with a diameter between 22.2 and 25.4 mm
- Equipped with arrow keys for direction indication
- Remote control is permanently ready for operation and is activated via the helmet's radio signal

Ref. No.	EAN 4003318	Colour	Size	Box Qty
Remote control Indicator Light	38061 7			1

EARPADS HYP- E

TECHNICAL DATA

- Ear armers for the ABUS P E helmet model and the P E A E and P E BL.A E variants
- Ear muffs keep your ears warm during outdoor activities on your bike whether in the cold, winter, rain or wind
- EarPads can be quickly and easily retrofitted to the lower edge of the bike helmet
- Soft, breathable and cushioned pads fit comfortably and snugly on the ear
- Washable at 30 degrees in a laundry bag
- Ear armers replace a hat and ensure that the bike helmet fits securely
- The fabric structure of the EarPads ensures that ambient noise can be easily heard
- Greater visibility thanks to reflective application on the outside of the EarPads

Ref. No.	EAN 4003318	Colour	Size	Box Qty
EarPads P E	40430 6	Black	universal	1

PEDELEC 2.0 EARPADS

SUCCESSFUL SHOP DESIGN

How you design your shop is a significant part of your economic success from a psychological perspective. We help you in the process of making your showroom a customer-friendly area. By doing so, you do not only ensure successful sales today, but also in the future. Because your customers will always come back.

1. STAND OUT

Make your business stand out from the crowd and ensure that your customers feel comfortable in your shop with a warm atmosphere.

2. QUALITY WINS

Many years of experience, carefully thought out development processes and high-quality materials are significant for the products themselves as well as for the presentation aids. ABUS has the complete package.

3. BE REMEMBERED

Create experiences, that go beyond the simple provision and sale of goods. Touch, try out - go on a discovery tour. This is your advantage especially compared to online businesses.

WE SUPPORT YOU IN SELLING OUR PRODUCTS

Your needs are very important to us. We support you in the process of creating experiences and transforming the purchase into an event, which you like to think back to - and that you want to repeat.

MODULAR CONSTRUCTION:

Our new system is designed in such a way that it can be assembled in a modular way from various elements. You can influence the design.

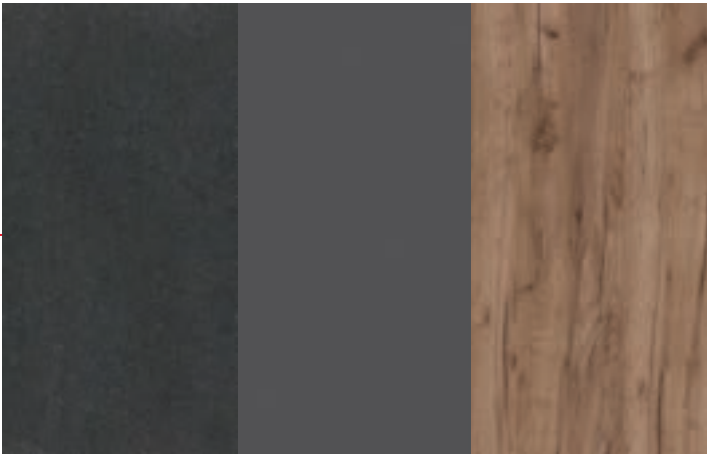

NUMEROUS ADD-ONS:

Attract attention, help to categorize and inform - combine the tools just the way you need them.

MODERN DESIGN:

Metal and wood elements combined in an understated „handmade“ look - won't disrupt the existing design of your shop.

WALL DISPLAY

Make full use of height and width of your walls to draw attention to the products. The combination of a solid base and stable back/rear wall ensures a secure stand.

WALL DISPLAY DIMENSIONS:

FEATURES WALL DISPLAY:

Available in 100 cm or 50 cm width, depth 35 cm

Height: 140-260 cm (variable in 40-cm-steps thanks to additional spacers)

Slatwall with option for power supply for lighting etc.

Base in wood look with interchangeable inlays

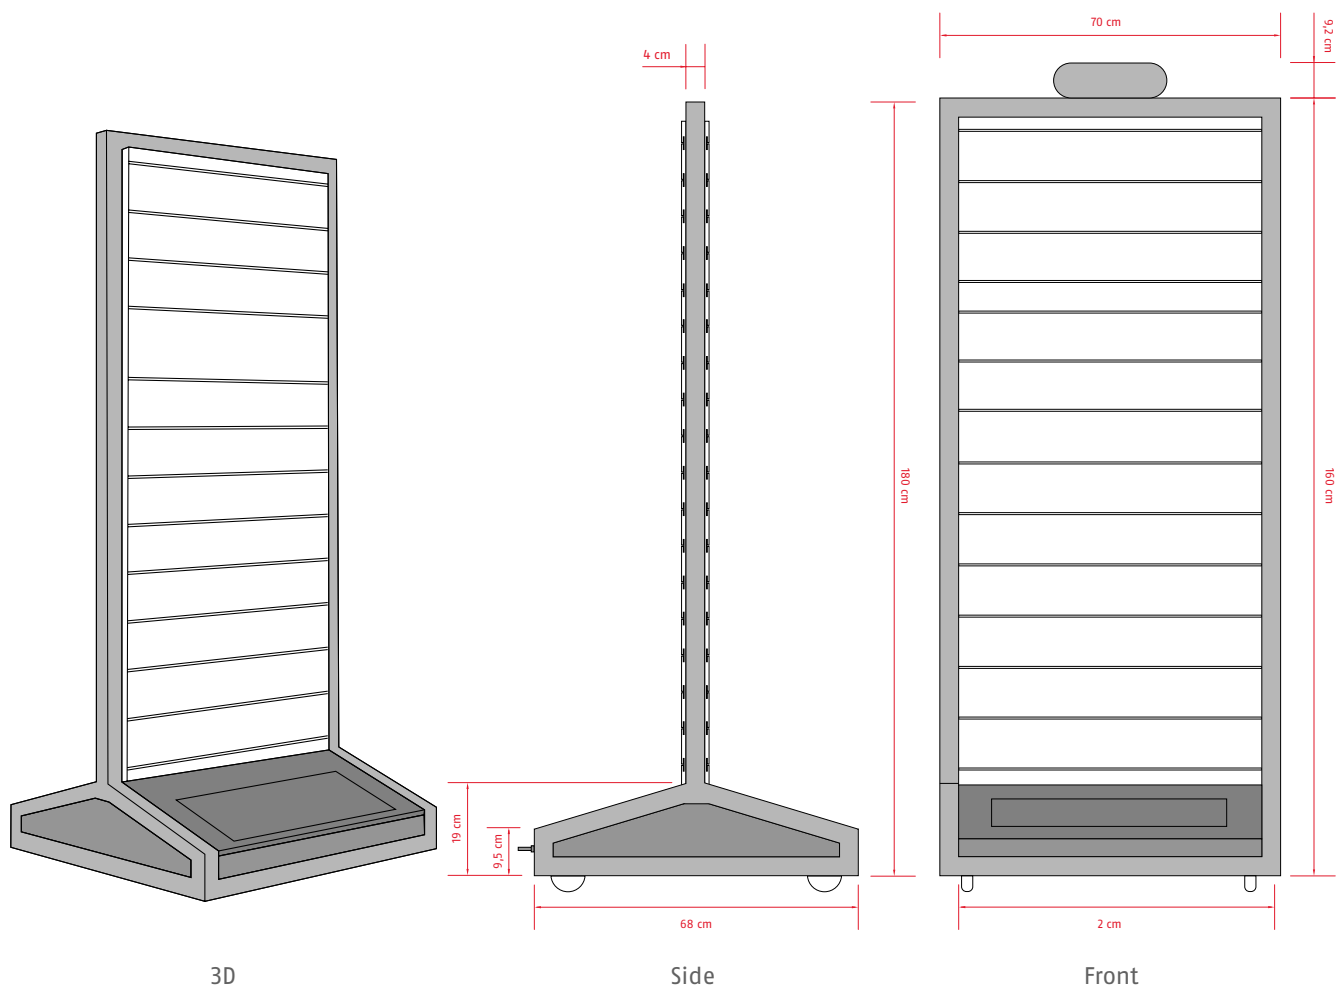

Optional with removable lid (usable as storage space)

Choose from our range of full-surface, illuminated picture elements

DIMENSIONS FREE-STANDING DISPLAY:

FREE STANDING DISPLAY

Expand and structure your product categories with free-standing displays - for example for new products or special offers. Thanks to the optional caster wheels you can move the display at any time to a new location.

Both sides can be used for display

Optional & removeable cover, can be used for storage

Optional caster wheels make repositioning easy

BE INSPIRED

Our new product presentation system offers a wide range of possible combinations. You can choose and equip your displays to match your product range and your premises.

Very good balance of merchandising density and matching picture elements

Easy/simple orientation via category signs

Large selection of illuminated picture elements for the tension frames

Inserts with product information as a decision-making aid

Order and clarity thanks to storage space in the base

GENERAL TERMS AND CONDITIONS

1. General

- For all business relations between the customer and us the following terms and conditions apply unless otherwise agreed explicitly in writing.
- Our offers are non-binding and only take effect with our written order confirmation or if we have arranged delivery of the ordered goods. The acknowledgment of receipt of an order does not constitute a legally binding acceptance of an offer. Drawings, illustrations, measurements, weights or other kinds of performance data are only binding if this is expressly agreed in writing. Commercial deviations and deviations caused by legal regulations or technical innovations, as well as replacement of parts by equal parts are acceptable as long as they do not adversely affect the usability of the contractual intended purpose.

2. Delivery

- The delivery time is only agreed as appropriate. It begins on the day on which the order confirmation is sent and is deemed to have been met if the goods have left our factory at the agreed time or, if it is not possible to send the order, the customer has been informed of the readiness for dispatch. In the event of delay an appropriate grace period must be set. Partial deliveries are allowed to a reasonable extent.
- If we are prevented from fulfilling our delivery obligation by the occurrence of unforeseen or exceptional events that we are not able to avert despite due diligence in accordance with the circumstances of the individual case, e.g. official interventions, operating faults, force majeure, epidemics, global pandemics with impact on the supply chain, delay in the delivery of raw materials, etc. the delivery time shall be extended to a reasonable extent. If the delivery or service is not possible due to the above-mentioned events we will be released from our delivery obligation without the customer being able to cancel their contract or claim damages.
- Unless otherwise expressly agreed, we shall deliver "Ex Works" (Incoterms® 2020). If delivery "Ex Works" (Incoterms® 2020) is agreed the risk will pass to the customer as soon as the consignment has been handed over to the person handling the transport or has left our warehouse for dispatch.

3. Pricing

- Unless otherwise expressly agreed our prices are net Ex Works (Wetter / Ruhr) and include packaging and dispatch.
- In the case of a third-party delivery for which the customer has agreed the direct delivery of the goods they have ordered to their customer we charge additional EU 4.00 net per delivery within Germany, EU 5.00 net per delivery within the EU.
- Minor and minimal orders will be charged for at a proportion of costs from the current pricelist.
- Orders for which fixed prices have not been expressly agreed will be charged in accordance with the prices valid on the day of delivery.
- The prices of purchased items are quoted plus VAT. Changes to the rate of VAT entitle both parties to adjust their prices accordingly.
- In the case of fixed prices agreed within the context of longer-term contracts, should a significant change of price factors occur, e.g. the price of raw materials, wages and salaries, the underlying exchange rate, etc. we can change the price accordingly.

4. Payment conditions

- Our invoices are payable within 30 days net. If the customer concluded a SEPA Direct Debit agreement with us we grant a 2% discount for invoices covered by it.
- No discount may be claimed if there are outstanding invoices to be paid. If an invoice paid with a credit note is calculated with a discount, we are entitled to deduct an appropriate discount deduction from the value of the credit note.
- The customer is obliged to check our invoice immediately after receipt. The customer must raise any objections in writing to us within six weeks of receiving the invoice. The invoice will be deemed to be accepted after this period has elapsed.
- If the credit term is exceeded we are entitled to charge default interest pursuant to Section 288 German Civil Code (BGB).
- We are entitled to offset payments of the customer against their older debts first and will inform the customer about the nature of the offsetting. If costs and interest have already accrued, we will be entitled to offset payments against the costs first, then against the interest and finally against the main service.
- A payment will only be deemed as having been made once we have access to the amount. In the case of cheques, payment is only deemed to have been made once the cheque has cleared. Bills of exchange will only be accepted on account of payment by arrangement and under the condition that they can be discounted. Discount charges will be calculated from the due date of the invoiced amount. Discount deductions are excluded.
- If, after conclusion of the contract, a significant risk arises in respect of payments due to us, we will be entitled to demand a prepayment or security and to refuse the delivery until our requirements have been met.
- Offset and retention rights are only available to the customer if their counter-claims have been legally established, are undisputed or have been recognised by us. The customer can only claim a retention right on the basis of counter-claims arising from the same delivery/service.

5. Return of goods

- Returns of goods are only possible if they have been expressly agreed on a case-by-case basis. Goods must be returned in their original packaging and be free from freight charges.
- For all goods returned we charge a flat-rate processing fee of 20% of the customer's product purchase price. If the cost of processing is higher, this will be invoiced separately.
- Custom-made products as well as faulty or damaged goods are categorically excluded from returns. This also applies to products that we no longer have or have in a modified form in our range.

6. Reservation of title

- The goods remain our property until all claims arising from the business relationship have been paid. The inclusion of individual claims in a current invoice as well as the balancing and its recognition shall not affect the reservation of title.

- The customer is entitled to resell the goods delivered by us in the proper course of business as long as they fulfil their obligations arising from the business relationship. The customer may, however, neither pledge the reserved goods nor assign them as security. The customer is bound to secure our rights on resale of the reserved goods on credit.
- The customer is obliged to handle the item with care; in particular they are obliged, at their own cost, to adequately insure it against fire, water damage and theft at their original value. Provided that maintenance and inspection work is required, the customer must carry this out promptly and at their own expense.
- We are entitled at any time to request the surrender of reserved goods if the customer is in default of payment.
- If the customer sells the reserved goods on credit, and thereby assigns to us the claims resulting from this resale of the goods, we shall accept this assignment. The client is entitled to collect claims as long as they fulfil their obligations towards us. The client is entitled, at our request, to name the third-party debtors and notify them of the assignment.
- We undertake to release the securities, in accordance with the aforementioned provisions, at our choice at the customer's request insofar as their value exceeds the claims to be secured by 20%.
- The customer must inform us immediately about any third-party enforcement measures against the reserved goods or any claims assigned to us or other securities and indeed hand over any documents necessary for an intervention.

7. Warranty and liability

- Obvious defects must be notified in writing immediately after receipt of delivery, hidden defects must be notified in writing immediately after their discovery.
- In the case of defectiveness of the purchased item we have first the right to rectification whereby we can refuse rectification alternative chosen by the customer under the requirements of Section 43 para. 3 of the German Civil Code (BGB). If we refuse both types of rectification in accordance with Section 439 para. 3 of the BGB or insofar as the rectification failed or is not acceptable to the customer, the customer is entitled to further claims for damages in place of rectification and withdrawal. A rectification is deemed to have failed after the second unsuccessful attempt unless, in particular, the nature of the item or the defect or other circumstances indicate otherwise. Any claim for damages made by the customer in place of performance is, in the case of negligent breach of duty by us or our vicarious agents, limited to foreseeable damage typical of the contract.
- No warranty is assumed for damage caused by inappropriate or improper use, defective assembly or commissioning by the customer or a third party, natural wear and tear or negligent handling or maintenance, unsuitable operating equipment or replacement materials, defective fitting, chemical, electro-chemical or electrical influences or other influences (e.g. water, frost, heat). Our warranty obligations also do not apply, if on the part of the customer or a third party, repairs, damage or changes are undertaken without our consent that have a causal connection with the defect being claimed for.
- The warranty is valid for one year from the date of delivery of the item purchased.
- Our technical advice, both orally and in writing and proposals, calculations, project plans, etc. should outline only the best possible use of our products to the customer. This does not release the customer from their obligation to examine the products themselves in order to ensure that they are satisfied with their suitability for their intended purpose.
- Complaints of any kind can only be taken into consideration if they are communicated in writing within 10 days of receipt of the shipment. In the case of defects that are not immediately obvious, they must be communicated in writing immediately after they have been identified, within six months after receipt at the latest. In the case of delayed notification of defects all warranty claims are excluded.
- Unless otherwise expressly agreed, compensation claims from the customer against us for whatever legal reason, in particular due to the violation of contractual obligations and unlawful acts are excluded. This shall not apply in cases of intent, gross negligence of officers, legal representatives or senior employees) or fraudulent intent and in the case of liability according to the German Product Liability Act or due to culpable injury to life, body or health or due to culpable violation of essential contractual obligations. Provided that none of the other above-mentioned cases exists, the claim for damages for the violation of essential contractual obligations is, however, limited to foreseeable damages typical of the contract.

8. Property rights

- The proposals, offers, illustrations, drawings, calculations and other documents produced by us in any form are our intellectual property and are therefore to be treated as confidential. You may only bring these to the attention of a third party with our consent.
- The operating materials manufactured by us for the production of the contractual objects on behalf of the customer, in particular tools, devices, documents, etc. remain our property even if the contractual relationship comes to an end and will only be delivered to the customer after the contract has been terminated if they are invoiced separately.
- The customer is solely liable if, by the execution of his order, rights, in particular industrial property rights of a third party, are violated.

9. Place of execution and court of jurisdiction

- If one or more terms of these terms and conditions of purchase proves wholly or partly invalid or incomplete, this shall not affect the validity of the remaining terms. The contracting parties shall make every effort to replace the invalid term with one with the same economic intent. The same applies in the event of a loophole.
- The business relationship with the customer shall be governed exclusively by the law of the Federal Republic of Germany to the exclusion of the United Nations Treaty on the International Sale of Goods (CISG), dated 11 April 1980.
- The place of execution for all obligations arising from the contractual relationship is Wetter / Ruhr, Germany.
- ABUS and the customer shall first attempt to resolve all disputes arising from or in relation to the contractual relationship between them out of court. If an out-of-court solution is not possible, Wetter / Ruhr shall be the exclusive place of jurisdiction. ABUS reserves the right to sue the customer at its registered place of business.

We do not undertake any liability for modifications in technology, changes in colour and errors. ABUS 06/2024
