Guide

Edition 2.2

MIK is the platform for new connections.

With our universal click system, you switch bike accessories effortlessly. You'll experience the freedom to go wherever, whenever you want.

MIK makes it your bike.

From the coolest bicycle bags and dog baskets to the safest child bike seats. With MIK, you attach bicycle accessories to your bike with one click.

That's how MIK clicks between your bike and who you are, what you do, and where you go. That makes cycling even more fun - and your bike truly yours.

Ready to go your own way?

MIK systems

Discover the various MIK systems and get the most out of your bike.

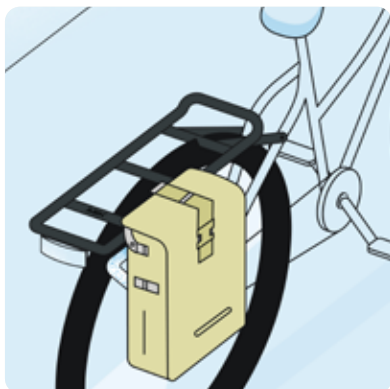

MIK Profiles

Click your bicycle accessories on top of your luggage rack in three steps.

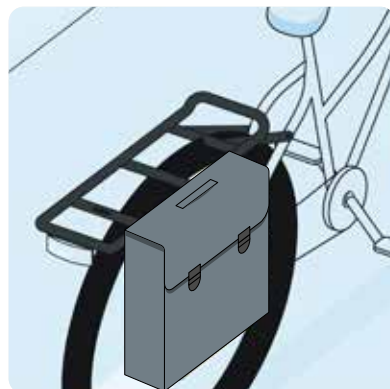

MIK HD

Easiest and most secure system for child bike seats and other accessories.

MIK Studs

Easily attach bicycle accessories (with locking option) to the side of your carrier.

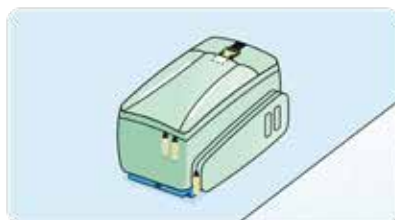

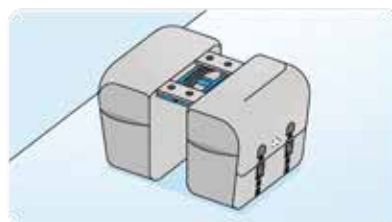

MIK Hooks

With self-locating hooks you can easily attach your bag to the side of any luggage rack.

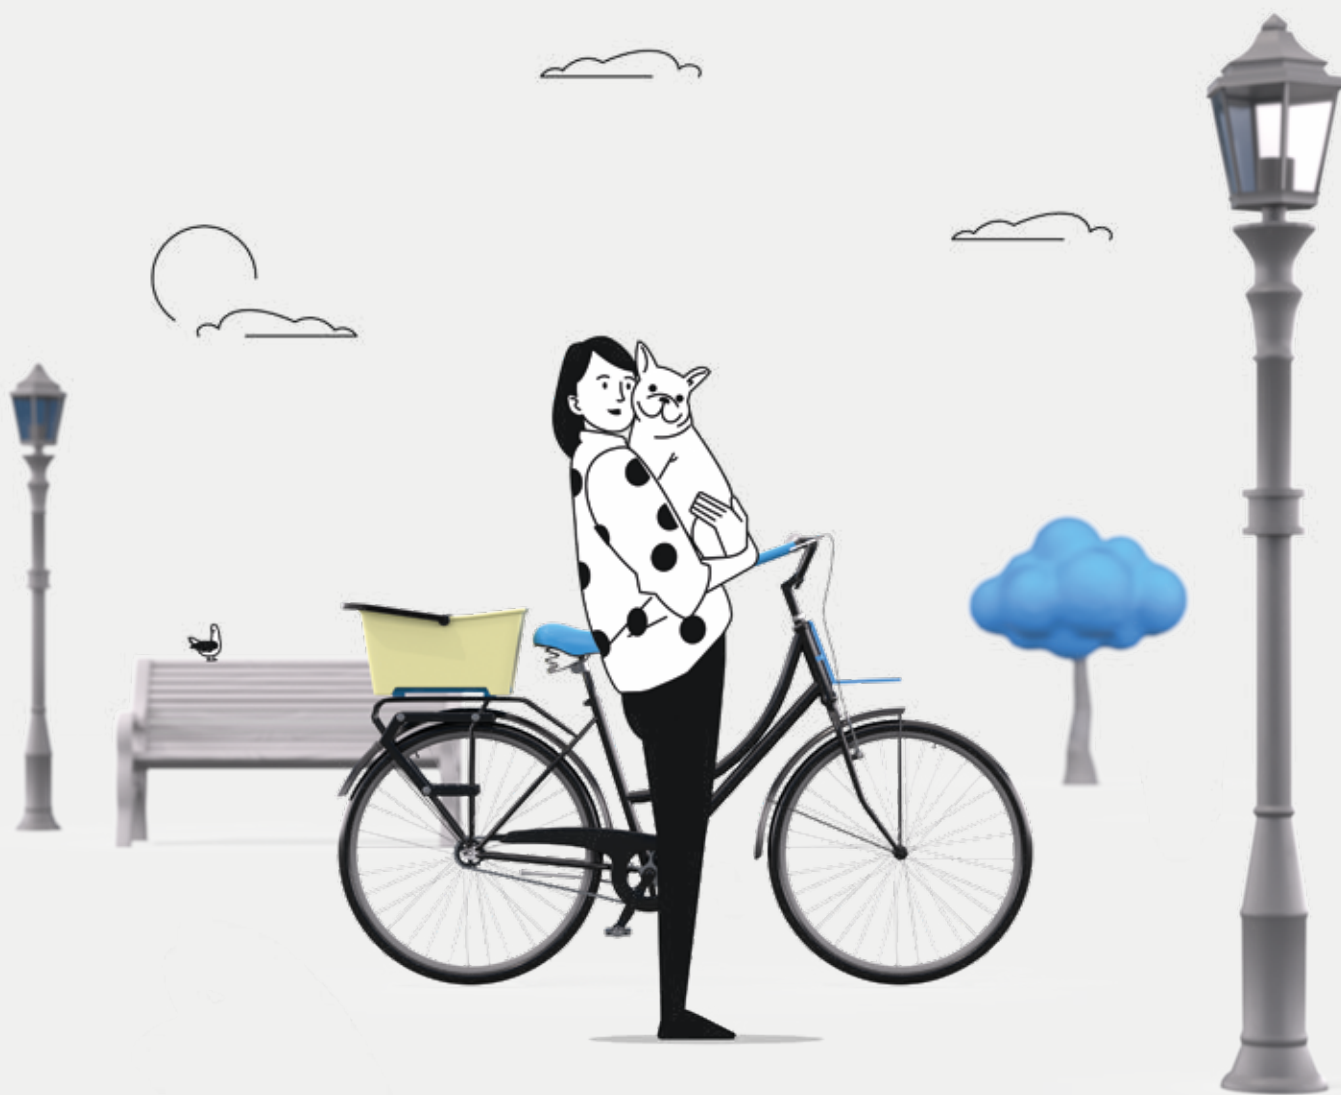

MIK Profiles

**Click your bicycle accessories on top of
your luggage rack in three easy steps.**

Cycling without limits

Is your bike MIK-ready?

Integrated MIK Profiles

Luggage carriers with integrated MIK Profiles are ready to click.

OR

How it works

1

You already have a rack with integrated MIK Profiles. Easily recognizable by the MIK logo.

2

Check if your bike accessory already has a pre-installed MIK Adapter Plate or if you need to purchase one separately.

3

Click on your bike accessory & let's go!

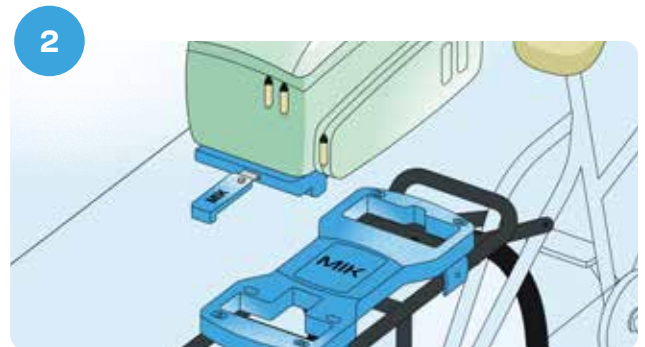

MIK Carrier Plate

A clever solution for luggage carriers without integrated MIK Profiles.

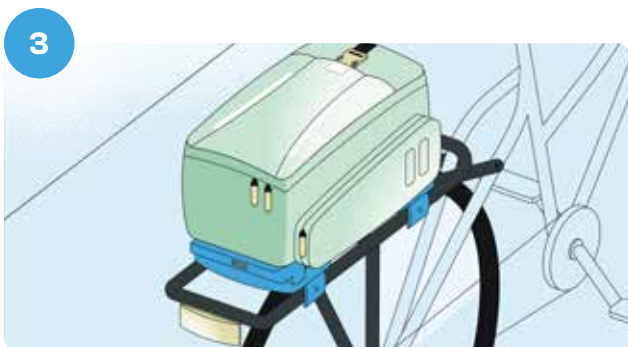

How it works

Mount the MIK Carrier Plate on your luggage rack if your bike does not have integrated MIK Profiles.

Check if your bike accessory already has a pre-installed MIK Adapter Plate or if you need to purchase one separately.

Click on your bike accessory & let's go!

Discover all MIK Profiles products

MIK luggage carriers

Contact the bicycle or luggage carrier manufacturer for a complete listing of all MIK-integrated luggage carriers.

MIK Carrier Plate

A convenient system to make a bicycle MIK-ready when it does not have integrated MIK Profiles.

MIK Adapter Plate 2.0

Provides the click between your bicycle accessories and the integrated MIK Profiles or MIK Carrier Plate. Some bicycle accessories already include a MIK Adapter Plate, and if not, you can buy a separate MIK Adapter Plate.

MIK Pannier Bag Tubes

This accessory for the MIK Carrier Plate allows you to attach single bags to your bike. Even without the MIK Studs System.

MIK Double Decker

Combine with other MIK accessories to use multiple bicycle accessories simultaneously.

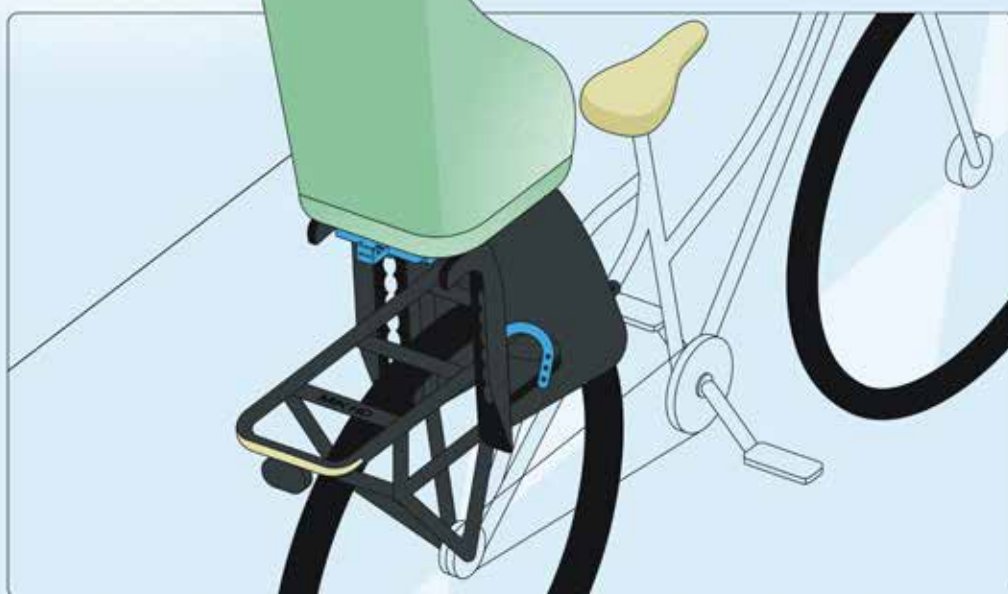

MIK Key S + L

Key for locking your MIK accessory to your luggage carrier.

Easiest and most secure system for child bike seats and other accessories.

An extra robust system,
suitable for weights up
to 27 kilos

First & only system in the
world to meet both ISO
standards for luggage carriers
and child bike seats

Specially designed for child
bike seats, including a 2-step
safety system

Switch bicycle accessories
effortlessly

Does my bicycle have a MIK HD system?

A bicycle with integrated MIK HD profiles is easily recognized by the MIK HD logo on your luggage rack. When in doubt, don't hesitate to contact your bicycle manufacturer for advice. For safety reasons, it is not possible to fit a MIK HD system to your bicycle as an aftermarket system.

Can I combine MIK bicycle accessories with MIK HD?

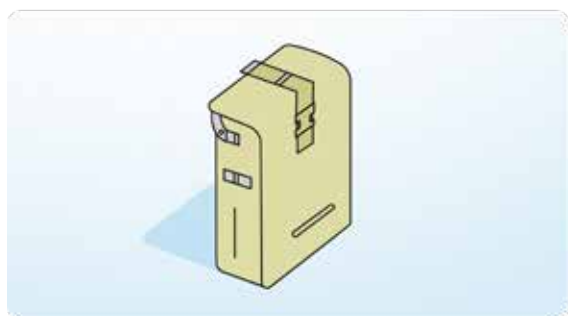

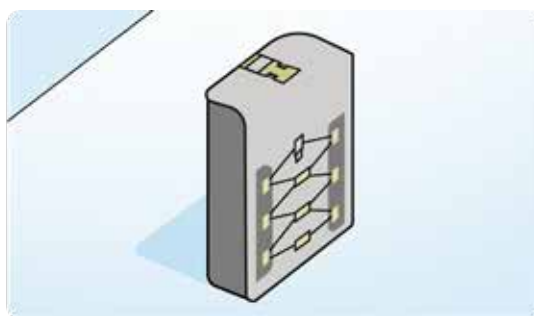

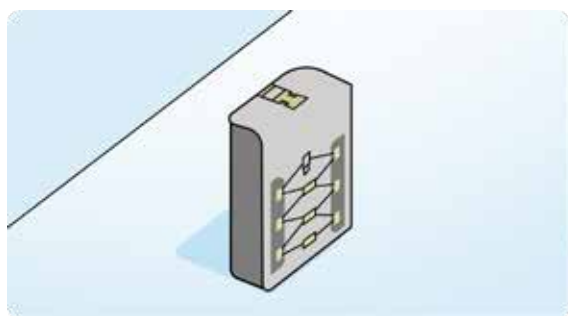

Yes, you can combine any MIK Profile accessory with the MIK HD system.

Integrated MIK Studs System

Luggage carriers with integrated MIK Studs system are ready to click.

OR

How it works

You have a luggage carrier with an integrated MIK Studs system.

If no Studs are pre-assembled on your bike, just simply mount the MIK Studs set.

Snap your MIK side bag onto this system of three (pre-installed or included) Studs.

Enjoy a smooth ride!

MIK Studs Frame Adapter

A clever solution for luggage carriers without an integrated MIK Studs system.

How it works

Mount the MIK Studs Frame Adapter to your luggage rack if your bike does not have an integrated MIK Studs system.

Click your MIK side bicycle bag onto the profile with three Studs.

Attach the accessory, and let's go!

Discover all MIK Studs products

MIK Luggage Carriers

Contact the bicycle or luggage carrier manufacturer for a complete listing of all MIK-integrated luggage carriers.

MIK Studs Frame Adapter

A handy system for bikes without an integrated MIK Studs system.

MIK Studs Set

The MIK Studs Set is included with every bag. You only need a separate set if you would like to have additional MIK Studs on the other side of your carrier, or another bike.

MIK Lock Pin

This will ensure your accessory is always securely attached to your bike while cycling. No risk of losing your belongings. With the included lock, you can also lock the system.

MIK Hooks

EUROPEAN
PRODUCT
DESIGN
AWARD™

**Innovative hook-on
system for attaching
single pannier bags.**

**Self-locating system for
effortless attachment of the
accessory to the bicycle**

**Can be locked with the MIK
Lock Pin**

**Durable design with long
service life**

safety**

**Universal compatibility with
various bicycle carriers with
the included inserts**

**Easy to integrate into a wide
range of bicycle accessories
due to its compact dimensions**

MIK Products for OEM customers

Make your accessories MIK-ready!

MIK Studs Backbone

Now you quickly and easily attach and change accessories in seconds without damaging your luggage carrier AND still have the possibility to mount an additional accessory on your topdeck.

MIK Adapter Plate 2.0

Thanks to this pre-assembled adapter plate, you can easily click your bicycle baskets into place on your bike frame at the luggage carrier with any frame that bears an integrated MIK system or MIK carrier plate.

MIK Studs

With MIK Studs, you quickly and easily attach and change accessories on your luggage carrier. Thus, with MIK Studs you not only put a bag or basket on your carrier, but you can also click additional bags on the side of your carrier. This handy system allows you to conveniently get any bag on and off your bike in seconds, stable and without damaging your luggage carrier.

MIK Hooks

MIK Hooks offers a revolutionary and effortless way to attach and detach your single pannier bags. With self-locating hooks and a locking option, you ensure stability and security without any hassle. The included inserts make the system compatible with various luggage carriers, and the compact, durable design seamlessly integrates with your accessories.

More than 150 brands already work with MIK

We proudly partner with many brands, and we work together to maximize the performance of your bicycle. All of these brands have equipped (a selection of) their bikes with the MIK system.
