UNIQUE SELLING POINTS

SAFETY

New retractable footrests and wheel protectors included. Designed for easy installation and adjustment – fits frame tubes from **Ø14 to 28 mm**.

Wheel protectors feature multiple mounting points for increased frame compatibility and added safety.

2-point lap belt and an additional frame safety strap included to ensure the child remains securely seated.

Integrated rear reflector for added visibility in low-light conditions.

COMFORT

Ergonomic shape for back support – maximum protection and increased child comfort.

Cushion is soft and easy to clean.

OTHER FEATURES

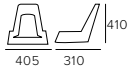

No tools needed to use the seat – it comes fully assembled and ready to use straight out of the box.

Footrests and wheel protectors only need to be installed once – they stay on the bike and can be used whenever needed, thanks to their retractable design.

E-bike compatible.

NEW MIK HD VERSION: features the MIK HD mounting system, offering the fastest and easiest way to install and remove the seat. No tools required. This version is only compatible with MIK HD luggage carriers.

AHEAD ADAPTER

FOR AHEADSETS WITH OR WITHOUT INTEGRATED CABLES

ALLOWS POLISPORT FRONT SEATS TO BE INSTALLED ON BIKES WITH 1" 1/8 THREADLESS STEMS AND INTEGRATED CABLES.

Engineered to work with standard and integrated cable routings, and designed to fit 1" 1/8 A-head stems. Compatible with all Polisport front seats using the Front Holder+ (A-head tube mounting system), its special geometry increases stem compatibility while maintaining the reliability.

COMPATIBILITY: Specially engineered for modern bicycles with threadless 1" 1/8 a-head stems. Suitable for mountain bikes, city, trekking bikes, and e-bikes while securely holding a front child bike seat.

INSTALLATION: Requiring only 5mm of installation space on the A-head stems, ideal for bikes with limited installation room. Special geometry ensures compatibility with a wide range of stems.

EFFORTLESS BIKE-TO-BIKE SEAT TRANSFERS: Easily transfer the front child bike seat with ease from one bike to another, with no tools.

POLISPORT MINI PELICAN

TODDLER SEAT REDUCER SUITABLE FOR
TRAILERS, STROLLERS, AND CARGO BIKES

The Polisport Mini Pelican is a lightweight and comfortable seat reducer for toddlers aged 7 to 18 months, suitable for use in bicycle trailers, strollers, and cargo bikes. It offers enhanced support and stability, helping younger children stay secure and comfortable during rides. Built with EPS (Pioselan) foam—the same impact-resistant, waterproof, recycled, and lightweight material found in bike helmets and child car seats.

Available in three versions—5-point harness, 3-point harness, and harness-free—the Mini Pelican adapts to different safety needs.

Two fabric options with a soft inner foam for extra comfort are available: a black all-weather cover for year-round use, and a white synthetic fleece for added warmth and softness.

The fixing straps included ensures the reducer stays firmly attached to the trailer, stroller, or cargo bike.

REAR BICYCLE CARRIER HRP

AWARD-WINNING REAR LUGGAGE CARRIER SUITABLE FOR MOST BIKES, ESPECIALLY FOR TREKKING AND MTB BIKES

The Rear Bicycle Luggage Carrier HRP sets a new benchmark in cycling design, proudly honored with both the Eurobike Gold Award and the German Design Award — two of the industry's most prestigious distinctions.

Built with our exclusive **HRP (Hollow Reinforced Parts) Technology**, it features a weld-free, high-strength structure that supports up to 27 kg, in full compliance with ISO 11243:2016 standards. This makes it not only ideal for panniers and gear but also fully compatible with child seats, ensuring safe and reliable transport for your little passengers.

Designed for everyday riders and touring cyclists alike, it offers quick pannier attachment, integrated mounting points for rear lights, and a sleek profile that suits a wide range of bikes — especially trekking and MTB models.

Lightweight, strong, and award-winning — this is more than just a carrier; it's a benchmark in modern cycling design.

TOP CASE

NOW WITH **MIK HD** SNAPLOCK MOUNTING SYSTEM

Introducing the Polisport Top Case: Your Ultimate Solution for Stylish, Practical, and Secure Transportation of Daily Essentials. With our latest solution, the new MIK mounting system, installation and removal have never been easier or faster. Simply attach it to your bicycle equipped with a MIK or MIK-HD luggage rack in seconds, without the need for any tools.

If your bicycle features the MIK or MIK-HD rack, here's why you should upgrade to the latest Top Case MIK HD SNAPLOCK version:

- Effortless one-click installation and removal with our toolless mounting system.
- Enjoy a secure and stable fit for your belongings.
- Anti-theft: Lock your case on the rack with the new snaplock system

Plus, with the addition of the Top Case Handle, carrying your essentials becomes even more convenient as you can easily take it with you wherever you go.

SAFETY NEVER LOOKED SO GOOD

This in-mold helmet it's the perfect choice if you are looking for a high-end helmet for your kids. This helmet features an in-mold construction and an expanded protective area to increase safety and durability. It has an adjustable dial retention system that perfectly adapts to the head. The straps are soft and lock in a 2-point safety harness, ensuring an optimal fit. If you are looking for a solution to increase your kid's visibility on the road you can now opt for the new models with LED light. The helmet is light and vented and for that reason, it won't be a problem for your kid to use it. The bug net in the front will keep the head protected. The matte finish of the model makes it even fancier.

E'CITY

THE SPEED PEDELEC HELMET

E'City helmet was developed to meet the specificities of NTA 8776, and its shape was designed to match your daily outfit. The speed E-Bike helmet looks like a normal bike helmet. Still, the main differences are the greater protection area for the head and temple and the absorption capacity of a higher impact.

The E'city model combines a simple, casual design and enough air channels to ensure good ventilation. The visor will ensure adequate sunshade during commuting. With an easy-to-adjust retention system, adjustable straps, and a side lock, the E'city includes a set of thermoformed inner pads that will help absorb perspiration.

CITY'GO

THE VERSATILE CITY HELMET

Polisport City'GO helmet is one of the most versatile helmets in the range.

Cyclists share the road with cars, and the first step to staying safe is to be seen, thus avoiding accidents.

We added a **rear LED light** that is quickly attached to the rear vent. With the steady flash mode, the cyclist can quickly select the preferred mode.

With one touch the rear light can be quickly removed to add more air ventilation.

With an easily adjustable dial retention system, the fitting was made easier, increasing the rider's comfort. You can also choose to use the CITY'GO with or without the visor.

URBAN PRO

MULTI-PURPOSE SKATE-STYLE HELMET SUITABLE FOR BICYCLE, BMX, SKATE OR INLINE

The Urban Pro is an urban cycling helmet that not only looks cool as a hard shell helmet, but it is particularly suitable for any riding style.

Made with low weight and multi-purpose use in mind, this model is suitable for commuting or to use in an extreme riding style – from a BMX rider to a longboard fan.

Its matte black neutral colour will totally fit the urban city style, match your daily outfit, and your adventures in your favorite spots.

Due to the injected construction process, Urban Pro features a proofed extra durability when compared to a standard helmet.

Its low-profile shape is distinct yet minimal and assures maximum protection for the user.

Its adjustable retention system ensures the greatest possible comfort. Urban Pro also features a hear lock divisor, a soft touch strap, and closure that won't pinch the skin of your chin.

The Polisport Light Pro combines a lightweight and durable construction to keep your head fresh even during intense rides. The Light Pro also offers a comfortable slim DIAL Retention System. Fully vented with aero design to improve air circulation and aerodynamic performance.

The helmet's interior has small thermo-welded pads smartly placed to increase comfort and increase perspiration management. The chin pad improves the adjustability of the straps and provides a sleek look without loose straps.

Light Pro also features an ear strap divider that can be easily locked at the best spot for extra comfort. The helmet is supplied with an extra pad set.

G-MUD

OPTIMAL FIT. STYLISH PROTECTION.

With the G-Mud, now you can use your gravel bike for what it's for... go everywhere no matter the weather. Its stylish and robust design and minimum distance to wheel ensure maximum protection against mud on your off-road paths, while offering an even cooler look to your Gravel Bike. Installed on any bike due to the Velcro system and Zip-Ties, the G-mud does not need any tools for any adjustment.

R COLLECTION

THE LIGHTEST AND HIGH-PERFORMANCE COMPETITION CHOICE

Weighing only 53g (550ml), the R collection competes in the worldwide high-performance cycling bottles category. Used by continental teams, its industry-leading low weight is enhanced by a thick plastic wall ensuring an excellent squeeze to control the liquid flow while offering a super-tight grip. The tip is soft-touch and provides you with a unique experience allowing you to control the perfect amount of liquid with no effort at all to open or close.

Keep your strengths for the road

S600/800

THE TRENDY BOTTLE FOR ALL SPORTS

Its compact and elegant design adapts to road, gravel and mountain bikes, or other sports. Ergonomic design, for a better grip and usage experience.

The S collection features a screw-on wide opening which makes the bottle really easy to fill and clean. This is also a good option if you're looking for a bottle to add fitness powders.

CORK BIO

THE NEW THERMAL BOTTLE MADE FROM CORK

Cork Bio thermal bottle is made from cork, a raw material that is 100% natural, ecological, biodegradable, and renewable.

The result is a reduced CO₂ footprint, increased lightness, optimal thermal properties, and great grip performance. In the interior there's foam with an aluminium membrane to prevent the temperature of the water changing during a period of time. There's a soft tip so you can control the water flow and also a hygienic tip cover.

MATERIAL Food-grade polyethylene and cork, BPA free.
