INE WITH HER SON DAAN, 1976

Hello,

We are Basil. We like to see you enjoying riding your bicycle, which is why we make beautiful and functional bicycle accessories that encourage you to cycle more often. Simply because cycling is healthy and gives you a daily dose of happiness.

It all started in 1976 when Ine van Dam stepped into the bicycle shop of Nico van Balveren, looking for a wicker basket for her bicycle. Nico rose up to the challenge and developed a custom made basket, meeting all Ine's wishes. The most important discovery: because of that basket she enjoyed her bike rides even more!

Not a whole lot has changed in our family business since then. Our passion still is designing products that make cycling more enjoyable, always taking your wishes into account.

We want to understand why and when you ride your bicycle. And also why and when you don't. From that we learn, every single day. This information, together with our sense of style and technical knowledge, results in stylish, high quality and always functional cycling accessories and cyclist rainwear. Together we can spread cycling joy. Will you join us?

On behalf of the Basil team,

Marthijn van Balveren

365 DAYS TO CYCLE

Every day is a cycling day with Basil.

You love the feeling of freedom on your bicycle. Cycling is good for you, good for the earth, and feels fantastic. You want to cycle on workdays, school days, summer days, winter days, dry days, and wet days.

Basil has you covered.

We'll extend your positive impact with our eco-friendly options. We'll carry your packets of joy, large and small. We'll keep you dry, comfortable, and looking great. You just focus on enjoying the ride, every single day.

**Spread the cycling joy,
365 days a year!**

Basil Brand Elements

At Basil, we want you to enjoy riding your bicycle. On workdays, school days, summer days, winter days, dry days, and wet days. That is why we make bicycle accessories that meet (y)our high standards. Our brand elements are the core of our business. They are the building blocks we use to design and create accessories that work for you. We use brand element icons to label products and their features.

SUSTAINABILITY

Cycling is a green choice. Extend your impact with our line of eco-friendly products. We reduce our environmental impact so you can cycle with an easy mind.

PERFECT FIT

Our innovative systems fit almost all bicycles. It is up to you, removable or fixed mounted... Good to know: no mounting stress. And you can easily swap accessories. The choice is yours!

VISIBILITY

Cycling is a way to LED go. With our Basil accessories you will be seen on the road, day or night! Our standard safety features reflective detailing. A next level for even better road safety, is our Nordlicht Technology: an integrated LED-strip!

WATERPROOF

Rain or shine, keep smiling with Basil. Our waterproof bags and rainwear will keep you and your belongings dry, every journey!

E-BIKE PERFECT

All our products are suitable for your E-bike. Several of our bags, baskets and systems are especially designed to the usage of your E-bike. We call them: E-bike perfect!

A person is riding a bicycle away from the camera on a paved road that curves to the left. The road is lined with tall, leafy trees, creating a canopy effect. The person is wearing a light blue shirt and dark pants. The bicycle has two large black panniers attached to the rear rack. The background is a lush green forest.

Our commitment to sustainability started in the 2012 with the Basil Urban Unfold bicycle bags made from recycled canvas, which launched the [re]-Cycling label. That commitment has grown ever since. Today, our headquarters are solar powered and produce more energy than they use.

On the road to being green

The successful Basil Skane rainwear series bears the BlueSign label, certifying the reduced social and environmental impact of the production process.

Various products are made from recycled PET. Like the Basil Ever-Green and Basil Bloom Field series. Also several series are finished with a Bionic Eco Finish® like the Basil Skane HiVis and the Basil Kavan series. To name just a few of our green endeavors.

The green highlight for this season is the redesign of our ultimate classic "the Kavan". Made from extremely durable organic canvas and designed to last!

I hope it's going to rain today!

Do you skip cycling because your rainwear makes you look and feel like a damp noodle inside a wet plastic bag? Are you embarrassed about arriving at your destination dripping wet, inside and out?

We admire the folks who cycle in the rain, but we envy the ones who look good doing it. What's their secret? Super powers aside, good rainwear is key.

With Basil rainwear, you can worry less about the weather forecast and more about where you're going. Good-bye, plastic bag feeling.

Hello, 365 days a year rainwear.

Basil **Luggage Carrier Extender**

Bicycles with a child's seat on the back don't have any room for bicycle bags. That problem has been consigned to history by the luggage carrier extender. Includes side supports for double bicycle bags and the option to attach a back light (50-80 mm).

BASIL **CARRIER EXTENDER**

Basil **DBS** (detachable bag system)

In all its simplicity, our new DBS – detachable bag system – is an effective way of carrying your double pannier bag. Why? Because this system makes your bag **detachable**. How?

- 1 By using straps you can easily mount the adapter plate with rotary locks onto your luggage carrier
- 2 The same goes for the second plate, thanks to the four straps you can combine the plate with your double pannier bag
- 3 And then, simply attach the bag onto your luggage carrier by rotating the two locks. Off you go!

Basil has developed the Universal Bridge system, so you are able to **quickly and easily remove** your double pannier bag from your luggage carrier. By means of **four openings** the Universal Bridge system is easy to install on your luggage carrier. This system is compatible with all luggage carriers including **e-bikes**, MIK and Racktime. It's all in the name: Universal!

You can mount with Universal bridge system in **two ways**:

The hooks are width-adjustable for the best possible positioning on the luggage carrier. The locking system with its green flag provides extra security to prevent loss. Also suitable for E-bikes. For tubes up to 16 mm Ø.

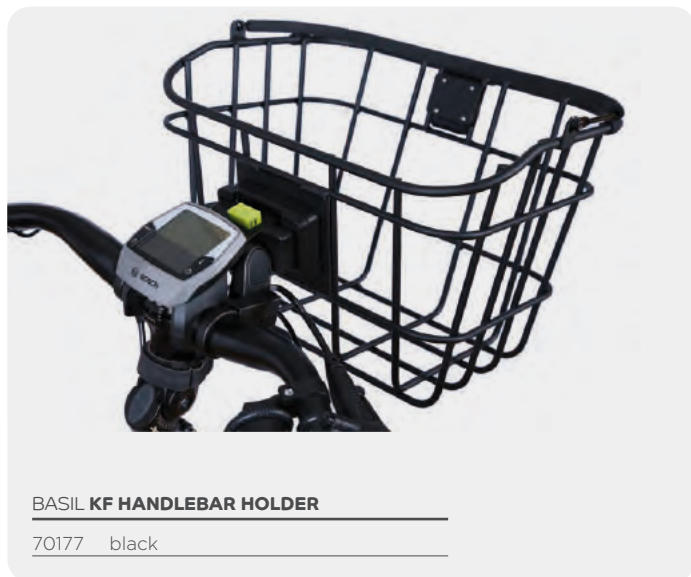

Basil **zipper pocket** solution

How do you turn a bicycle bag into a fashion accessory? The answer is the zipper pocket, first introduced by Basil. The Hook -On System can be hidden away in the zipper pocket, transforming the bicycle bag into a 'normal' shoulder bag in the blink of an eye.

Basil KF Handlebar holder

The Basil KF Handlebar holder is compatible with all removable bags and baskets equipped with an **KF adapter plate**. This system is suitable for steering tubes from 22 to 31.8 mm Ø. **The angle can be adjusted.** Furthermore, thanks to two parts (included) you can use the handlebar holder in combination with E-bike operating displays, such as the Bosch® display.

Basil Waterproof

Explanation of waterproof:

- Meets IPX3, with due observance of the applicable IP Code (IEC 60529).
- IPX 3 applies to the main compartment of the bags.
- Sharp objects may have a negative effect on the water resistance of the materials used.
- Condensation may be the cause of items inside the waterproof inner bag feeling damp. For this reason electronic equipment must always be packed in a separate waterproof cover.
- The level of water resistance was determined on the basis of normal use with a maximum load of 10kg per main compartment. A maximum of 2.5 kg applies to the handlebar bags.
- The water resistance cannot be guaranteed if the flap and any roll top closures of the bag are not overlapped and closed properly.
- Bags must be dried carefully after every exposure to rainwater.
- In general terms, the effects of the weather will gradually reduce the water resistance of fabrics. We recommend periodically treating the bags with an appropriate, water-repelling spray.

Basil Nordlicht Technology

Nordlicht Technology can be used as additional lightning and should under no circumstances replace the legally required bicycle light. Whenever any light is used on a bicycle, it must at all times comply with local regulations.

The publicity photos contained in this brochure have been specially staged for this new Basil collection. In daily traffic, you must comply with traffic regulations at all times. Furthermore, please note that you should always follow the manufacturer's instructions regarding the correct use of any product.
