POLISPORT **COMMITMENT**

#environmentally*responsible*

The world faces enormous changes each minute we breathe. Global emissions are reaching record levels and show no sign of slowing down.
It's time to move on to make a greener world.

WE CARE

WE ARE DEVELOPING **GREENER PRODUCTS AND GREENER WAYS** TO HAVE THEM DELIVERED TO YOU.

We are focusing on sustainable processes and materials that will increase our efficiency and reduce our ecological footprint, without compromising the safety, comfort, and effectiveness of our products. As you know, due to the pandemic situation the usage of the bicycle as a safer means of transportation has increased exponentially. This also makes us even more responsible to provide greener products that potentiate bicycle usage for commuting.
Be part of this sustainable movement.

OUR SUSTAINABLE COMMITMENT

REDUCING OUR PRODUCTION IMPACT IN THE ENVIRONMENT

This goal is extended not only to the mission of delivering greener products to the market, but also to the way they are produced.

- ✓ We´ve installed an advanced cooling system that pulls in outside ambient air and uses it to cool the working areas, providing a significant energy reduction.
- ✓ We are changing the lighting system of our units for high-efficient LED light bulbs.
- ✓ We invested in a roof-based renewable energy system that includes 1500 solar panels to be installed in all our units.

We have a full path to go, but our goal is quite clear because there is no planet B.

REDUCE, RECYCLE, REUSE.

IN 2020 WE MANAGE TO REDUCE

-4‰ WATER CONSUMPTION

-13‰ WASTE

-7‰ ELECTRICITY

-10% CO_2 EMISSIONS

* the above trend is based on the turnover

SUSTAINABLE RAW MATERIALS

More and more, each time we launch a new product, we launched with a sustainable compromise in mind, exploring the usage of sustainable raw materials that meet our high safety standards.

We also wanted to find a solution to manage our internal waste, so we achieved to optimize our processes to increase the quantity of recycled material used. No impact on the product, but a great impact on the environment.

Besides that, we are also studying how we can develop products where the principal raw material is biobased – sugar cane and cork are just the first ones of this major sustainable commitment.

ECO-FRIENDLY PACKAGING DESIGN

Reaching your home in a greener way

We are optimizing our packaging so we can reduce our number of transportations while shipping a greater number of products.

We are using more and more sustainable sourced and certified paper and cartons by the Forest Stewardship Council® (FSC). This means that our carton boxes will be prevenient from sustainable forests and are 100% recyclable & reusable.

We are replacing our disposal plastic bags with other alternatives made from natural materials.

GROOVY® ECO
THE NEW ECO LINE

When waste become a solution and not a problem

To produce child seats with the level of quality we aim at, there is a significant amount of waste that is compulsorily generated, so we wanted to find a solution to manage our internal waste to reduce our ecological footprint without compromising our quality and comfort standards.

DESTROY NOTHING.

SUSTAINABLE SEAT RANGE

All the range features now less than 50% of color raw material. This invisible change to the customer, along with redefined production processes turned Groovy® into a more sustainable and ecological seat range, naturally contributing to less greenhouse gases emissions into the atmosphere.

Besides the product by itself, we´ve also redefined and improved the individual packaging discarding any kind of single-use plastic and introducing sustainable materials (FSC©).

All these improvements are available for Groovy® FF, Groovy® 29", Groovy® RS+, Groovy® CFS.

FF
FRAME MOUNTING SYSTEM

Developed to be safe, simple, reliable, efficient, and easy to use. The double rabbet and click system have a very smooth action when mounting the child seat, sliding easily into the slots and requiring no further pressure than the weight of the seat. It only takes a light push of the holder safety button to release the child seat, making it really **easy to remove and store**. No need to remove the holder for uncoupling the seat. This mounting system allows moving the seat backward and forward in 3 positions, according to the bicycle and child size. Tools included.

STANDARD FRAME HOLDER

Approved for
BILBY MAXI, BILBY JUNIOR, KOOLAH and JOY models

Fits frames from 28 to 40 mm with round or oval tubes.
Frame length required - 80 mm.
Inside the holder, a rubber pad protects the bicycle from getting damaged and allows the mounting system to adapt to frames of different sizes.
The rear metallic part of the holder has an opening to allow the brake cables to fit in without being pinched.

QUICK-RELEASE FRAME HOLDER

Approved for
GUPPY MAXI+, GROOVY, BUBBLY MAXI PLUS and BUBBLY MINI PLUS FF models

Fits frames from 28 to 40 mm with round or oval tubes.
Frame length required - 105 mm.
Green indicators appear when the seat is correctly assembled.
Smoother fitting - All the screws remain built-in inside the holder.
Designed to accommodate the brake cable - preventing it from being pinched.
Rubber pad inside to prevent the frame from getting damaged.

STANDARD FRONT HEAD TUBE HOLDER

Approved for
BUBBLY MINI PLUS and BILBY JUNIOR models

Fits round frames from Ø22 to 40 mm.
Frame length required - 35 mm.
Inside the holder, a rubber pad protects the bicycle from getting damaged and allows the mounting system to adapt to front head tubes of different sizes.
Available in two mounting options:
- small head tubes (10 mm / ø28-40 mm)
- standard head tubes (35 mm / ø22-40 mm)

A compatible ahead adapter for 1"1/8 is available as a spare part.

NEW

Additional anti-theft screw for locking the seat

Accommodates the Windscreen Bar

Featuring 3 different sets of bushing adapters with different sizes and shapes to assure a perfect fitting in a wider range of bicycles. **The novelty comes reinforced with an included adapter for 1"1/8 stems since the new bicycles are more and more using this kind of stems.**
The holder can also be easily integrated with the windscreen and comes with an additional anti-theft screw for locking the system and therefore preventing the seat from being stollen.
Suitable for standard, E-bikes, MTB, and E-MTB the new Holder+ fits round frame tubes from Ø22 to 40 mm and needs only 35 mm space available to be assembled.

NOT COMPATIBLE with the following frames / bicycles

drop bown handler bar | carbon fiber | rear suspension shock absorber | motor (mopeds and scooters) | speed pedalecs | triangular frames | square frames

MEETS all EN 14344 safety requirements.

Also sold as a spare part.

RS PLUS
RECLINING MOUNTING SYSTEM

PATENT

EASY ADJUSTMENT
Recline the seat in 2 positions up to 20º, while the child is on the seat.

Recline the seat up to 20º without having to remove your child from the seat. The system has been developed so that the adult user has full control, being able to **safely unlock, recline, and lock the seat again.** The child will not be able to handle the system, thus preventing any possible accidents, ensuring the safety of both direct and indirect users.

CFS
CARRIER MOUNTING SYSTEM

SLIM, WIDER CARRIER PLATE

Approved for
GUPPY MAXI+, GROOVY and BUBBLY MAXI PLUS models

Developed to take advantage of bikes that are already equipped with a luggage carrier. The carrier is securely attached to the seat, which is extremely important as it increases stability for the rider. **It's really easy to install and release the seat - no tools are needed.** It's also easy to store, and use while commuting. For increased child and rider comfort, the seat can be moved backward and forwards along the luggage carrier length.
The slim design of the carrier plate leads to improved performance. The range has been increased from 175 to 185 mm, to fit a wider range of the commuting bikes available on the market, especially E-bikes.
Features a left and right mechanical system, making it easier to install and release the seat (to clamp turn to the right; to release turn to the left).
Fits luggage tubes with diameters Ø10 to 16 mm.

CLICK&ENJOY

ADJUSTABLE IN 2 POSITIONS FOR AN OPTIMAL FIT

NO TOOLS NEEDED

Bubbly Maxi Plus incorporates the new MIK HD adapter plate. This means that this seat is 100% compatible with any carrier that incorporates MIK HD.
You can find a wide range of standard and electric bicycles in the market equipped with MIK HD. With this system you will click your seat into the carrier in just a couple of seconds, without the need of tools. With MIK HD system, you are still able to adjust the seat backwards and forwards in 2 positions according to the child and bicycle size. An Allen Key is provided for this.
Only compatible with carriers that feature MIK HD with at least 27 kg / 59.52 lb of capacity according to ISO 11243.

NOT COMPATIBLE with the following frames / bicycles

AHEAD ADAPTERS

ALLOWS POLISPORT MINI SEATS TO BE INSTALLED ON BIKES WITH 1"1/8 AHEADSET STEMS

Making the world of child seats a little more accessible to everyone, and reaching the most compatibility possible between bicycle manufacturers and Polisport front seats, we have developed these Ahead Adapters - sturdy slim brackets that allow you to mount your Polisport seat to bikes with threadless stems. The Ahead Adapter is designed to accommodate adjustable stems, e-bikes with a monitor or controller at the top of the stem, and MTB with 1” 1/8 stems. The required installation space is only 5mm.

POLISPORT TRAILER

FOR **BIKING**

Polisport Trailer gives your family all the reasons to go out and safely cruise together. You can take one or two kids on the cockpit, plus a small cargo on the back trunk of your trailer. Just connect the trailer to your bicycle, get your kids and small cargo settled and you are ready to go.
You can also use the Polisport Trailer to transport larger loads. Just fold up the seat, and take advantage of the full load cargo capacity (25kg).
Polisport Trailer is the safest and greener way for you to move around.

FOR **STROLLING**

Easily convert your Trailer into a Stroller by just adding the Stroller Kit or if you are not interested in combining strolling and biking, you can purchase only the Stroller version. The stroller features a soft-touch handlebar adjustable in 4 positions, making your tour even pleasant.

STROLLING OR BIKING **WITH KIDS OR CARGO**

You can easily convert your Trailer or Stroller to transport cargo just by folding the seat down.
CARGO: Maximum load capacity 25kg.
KIDS + CARGO: Maximum load capacity 41 kg.

BALANCE BIKE

EXPLORING THE WORLD IN A HEALTHY AND HAPPY WAY

Polisport Balance Bike is a training bicycle that helps little kids learn how to steer and balance. It allows children to build the confidence they will need once they are ready for a more traditional bicycle with pedals - no training wheels required! Children are seated so that their little legs can reach the ground comfortably. A built-in steering limiter also allows children to maintain control of how much they turn. Comfortable hand rubber grips, an ergonomically designed seat, and shock absorbing wheels give little riders extra comfort. Polisport Balance Bike features an adjustable seat that grows with the child.

- This item is considered a toy.
- Not to be used on public roads.
- It must always be used under parental supervision.

CITY'GO

THE VERSATILE CITY HELMET

Polisport City'GO helmet is one of the most versatile helmets in the range.
Cyclists share the road with cars, and the first step to staying safe is to be seen, thus avoiding accidents.
We added a **rear LED light** that's quickly attached to the rear vent. With the steady flash mode, the cyclist can quickly select the preferred mode.
With one touch the rear light can be quickly removed to add more air ventilation.
With an easily adjustable dial retention system, the fitting was made easier, increasing the rider's comfort.
You can also choose to use the CITY'GO with or without the visor.

E'CITY

THE SPEED PEDELEC HELMET

The current trend of E-bikes is increasingly implemented and a special bike needs a special helmet. S-EPACS have their own requirements so that users can safely adapt it to their use. One of them is the use of a helmet that complies with the requirements of NTA Standard 8776. Our E'City helmet was developed to meet the specificities of NTA 8776, and its shape was designed to match your daily outfit. Apparently, the speed E-Bike helmet looks like a normal bike helmet, but the main differences are the greater area of protection of the head and the absorption capacity of a larger impact. The E'city model combines simple and casual design and contains enough air channels to ensure good ventilation. The visor will ensure adequate sun shade during commuting. With an easy-to-adjust retention system, adjustable straps, and a side lock, the E'city includes a set of thermoformed inner pads that will help in the absorption of perspiration.

URBAN PRO

MULTI-PURPOSE SKATE-STYLE HELMET SUITABLE FOR BICYCLE, BMX, SKATE OR INLINE

The Urban Pro is an urban cycling helmet that not only does it look cool as a hard shell helmet, but it is particularly suitable for any riding style.
Made with low weight and multi-purpose use in mind, this model is suitable for commuting or to use in an extreme riding style – for a BMX rider to a longboard fan.
Its matte black neutral color will totally fit the urban city style, match your daily outfit, and your adventures in the radical park.
Due to the injected construction process Urban Pro features a proofed extra durability when compared to a standard helmet.
Its low-profile shape is distinct yet minimal and assures maximum protection for the user.
Its adjustable retention system ensures the greatest possible comfort. Urban Pro also features a hear lock divisor, a soft touch strap, and closure that won't pinch the skin of your chin.

S-MUD

THREE DIFFERENT OPTIONS FOR THE MUDGUARD FOR SADDLE RAILS. THE “SO FAST” AND EASY CLIPPING SYSTEM NOW HAS ONE MORE OPTION – A SPECIAL DESIGN FOR MTB.

S-Mud is a rear mudguard that is directly attached to the saddle rails. Now we are adding to the range a special S-Mud designed for MTB bikes, to offer an increase and better mud and spray protection. Now all bicycles and styles of riding are covered with S-Mud range.
Clip the mudguard with one hand in a few seconds.
Clean design to assure visual integration with all bicycles and avoid extra weight. No tools required to clip or unclip.
Compatible with all bicycles since there is an adjustment of the mudguard angle. The adjustment of the angle is also fast: unfasten the screw with an Allen key – adjust the angle –Tighten the bolt.
The product's main innovation is the user-friendly characteristic without any functional loss. It allows the cyclist to remove the mudguard for dry conditions or safer transport avoiding damages.

USER-FRIENDLY CONCEPT

Clip and unclip instantly in all the long, short or MTB versions.
No tools required.

T500 THERMAL BOTTLE

FOR YOUR **CYCLING** OR **OUTDOOR** HYDRATION

Designed in a small body, but with an increased capacity, T500 offers not only an excellent squeeze as also a superb 4hour thermal capacity. T500 is quite smaller than those thermal bottles that we are used to and will be your new top accessory for your summer cycling or outdoor activities.

The protective cap of the bottle, besides the benefits of usage on a more adventurer cycle path, is also a good option for your gym sessions, long walks, or trails.

SUPERB 4 HOUR

CORK BIO

THE NEW THERMAL BOTTLE MADE FROM CORK

BIO BOTTLE

Cork Bio thermal bottle is made from cork, a raw material that is 100% natural, ecological, biodegradable, and renewable.
The result is a reduced CO_2 footprint, increased lightness, optimal thermal properties, and great grip performance. In the interior there's foam with an aluminium membrane to prevent the temperature of the water changing during a period of time. There's a soft tip so you can control the water flow and also an hygienic tip cover.

Did you know?
Cork is extracted from the living tree - the cork oak, without interfering with its natural growth. The cork oak beyond absorb CO_2 to regenerate, it's also an important producer of oxygen.

R550/R750

The R Range features two capacity options – 550ml and 750ml. In any case, you will find booth an extremely lightweight cycling bottle. Weighing only 53g, the R550 competes now in the high-performance cycling bottles category. Besides its industry-leading low weight, it brings together a one-handed ergonomic design which makes it easier to grab. The range is produced using BPA free and features an excellent soft squeeze experience. The tip is produced using a super soft TPE compound that promotes a soft opening and also incorporates a high flow channel so that you can easily satisfy your thirst. This model is available in 7 different color combinations, with a printed scale and a clear stripe that helps you quickly check the liquid amount.

BOTTLE CAGE PRO EVO

THE PRO BOTTLE CAGE WITH EASY ACCESS, EVEN FROM THE SIDES

Polisport's Bottle Cage Pro Evo is extremely lightweight, 33g. The clever geometry of the bottle cage allows you to quickly remove the bottle from a variety of different angles. This is a huge benefit, while you are riding, have no time to waste, and you need to focus on the road. The bottle cage is also suitable for small bikes and sloping frames that do not offer much space for a water-bottle. You can also match the Bottle Cage Pro with your bike color – say goodbye to those dark cages and pimp your bike!

TOOL BOTTLE

THE BEST WAY TO TRANSPORT YOUR CYCLING ESSENTIALS

With the Polisport Tool Bottle, you can easily fit a spare tube, some tire levers, a multi-tool and some puncture patches in the 600ml hollow of the Polisport Tool Bottle, with a little bit of room to spare for any other tiny tool preferences you may have. There's definitely enough room in there for the ride essentials even if you need to store some other objects such as your keys or some coffee cash! This is a really good alternative to the saddle-bag because you will benefit from a wider opening with easier access than that of your normal saddle-bag and avoid some unstrapping as well. And of course, the certainty that it's also waterproof so you won't ever need to suddenly dry the contents of a saddle-bag after a five-hour wheel-spraying soaking. Our top benefit is that you can still use it to transport water in it since the material complies with food contact regulation.

POLISPORT GROUP HISTORY

HOME PRODUCTION IN A GARAGE

It all started in the year of 1978. Polisport Group was founded, originating from Polisport's CEO's passion for two wheels.
The Group has focused and specialized in these markets ever since.

CHILD BICYCLE SEATS

Polisport is now the worldwide leading producer of child seats in the bicycle market, setting industry standards since 1988 with the launch of the "New Sit".

BICYCLE MUDGUARDS

Now offering a range of more than 20 different mudguard models for MTB Sport / Recreational, Trekking, City and Road bikes, Polisport is a reliable brand in the mudguard market.

SPORT BOTTLES

Nowadays our range includes a wide variety of thermal, screw-on and clip-on models.

WE ALWAYS LOOK INTO THE FUTURE

OUR CYCLING HELMETS ARE LIFE SAVERS
In 1996 we released our first bicycle helmet collection.
Nowadays, Polisport offers a range with more than 15 models for adults, children, and juniors for MTB Sports/ Recreational biking, Trekking, and use in the City and on Roads. All, of course, with a very specific goal – saving your life!

WE DO IT ALL BY OURSELVES

A-Z PROCESS IN-HOUSE; INNOVATION; GLOBALIZATION; COMPETITIVENESS; SERVICE QUALITY; FLEXIBILITY

The establishment of Marketing, Logistics and R&D departments, which were set up in 2006, were a cornerstone to achieving these goals and allowing us to work as an OEM supplier in the bicycle and automotive sectors, and as an OEM supplier for a renowned Norwegian car seat brand. This focus on innovation and developing IPD technology - exclusive patented technology - allowed the Group to become the OEM suppliers of several major manufacturers, including KTM, GAS GAS, Husqvarna, Triumph, and BMW.

WE ARE INNOVATIVE

Polisport was recognized as the Most Innovative Portuguese Company of the year by COTEC-BPI, winning the SME (Small and Medium Enterprise) Innovation Award.

WE ARE CRAZY ABOUT DESIGN AND COMFORT

Guppy junior received an if Design and an Eurobike Award in the design Category, in recognition of its functionality, usability and design. In 2012, Guppy Maxi child seat won the Taipei Cycle Award, and, a few months later, Polisport also won two distinguished IF Design awards: “Product Design” for Guppy child seat and “Material Design” for Corky water bottle.

POLISPORT MOVE

Launched in 2020 Polisport Move is a new division in the Polisport Bicycle area that, incorporates all products related to mobility and transport. The creation of Polisport Move materializes a compromise of the company on the launching of new products that will favor the family transportation and mobility, without forgetting the development of the product by itself, having in mind not only sustainable processes but also sustainable materials.
By creating Polisport Move we were also looking to reach a more specific target audience that is eager to include sustainable means of transport, and sustainable products in their daily lives.
POLISPORT MOVE.
